Organizational History

In 1951, Richard N. and Rhoda H. Goldman, San Francisco natives and philanthropists, established their philanthropic organization, the Richard & Rhoda Goldman Fund. The Goldman Fund was a philanthropic organization dedicated to funding programs of nonprofit organizations in the San Francisco Bay Area, as well as nationally and internationally.

By the time they established their foundation, Richard and Rhoda were already active volunteers and philanthropists.

Richard N. Goldman (1920-2010) was born in San Francisco to Richard Samuel Goldman and Alice Wertheim. Richard graduated from the University of California, Berkeley in 1941 and served in the United States Army from 1942-1946.

Richard married Rhoda Haas (1924-1996), the daughter of Walter A. Haas, Sr. and Elise Stern, in 1946. Rhoda, also a native of San Francisco, graduated from the University of California, Berkeley in 1946. In 1949, Richard founded an insurance brokerage, Richard N. Goldman & Company, later renamed Goldman Insurance and Risk Management. The Goldmans had four children: Richard, John, Douglas, and Susan.

The creation of the Goldman Fund increased Richard and Rhoda's dedication to philanthropy. As the Fund grew, grant making evolved from an immediate-needs charity to one of a more strategic nature that emphasized policy and advocacy to address root causes. Over time, Richard and Rhoda's philanthropic efforts ultimately focused on five main areas: the environment, Jewish Affairs, Israel, the San Francisco Bay Area, and population, as well as special projects that addressed issues important to the Goldmans.

The environment was the Fund's largest program area, with a focus primarily on efforts to protect California's environment - including its air, water, coastline, forests, deserts, wetlands, and open spaces. The Fund also supported groups working to

reduce the impact of industry on the environment, as well as those addressing the effect of population on global natural resources.

In the area of Jewish affairs, the Goldmans worked to ensure a vibrant and welcoming Jewish community, particularly in San Francisco. Grants were given to organizations committed to building a more engaged Jewish community, as well as to groups dedicated to combating anti-Semitism and to providing education to Americans about Judaism, the Jewish people, and Israel.

Israel's present and future was also of paramount importance to the Goldmans. The Fund established an office in Israel to manage its philanthropic interests there, which included grants for strengthening democracy for all Israelis, protecting Israel's environment, improving educational opportunities for disadvantaged Israelis, promoting religious pluralism, advocating social justice, and promoting civic inclusion.

As San Francisco was the birthplace of both Richard and Rhoda, they supported a wide range of San Francisco-based civic and community organizations dedicated to helping the poor, the elderly, and disadvantaged youth. The Goldmans were also committed to ensuring that San Francisco's core cultural and educational foundations remained world class and accessible to all.

Another core program area of the Fund was population, as related to women's rights, reproductive freedom, and the environmental impact of population growth. The Goldman Fund was an early advocate for the protection and expansion of reproductive rights, and it supported programs that worked to improve reproductive health policies, facilitate access to abortion, and increase and improve training for healthcare workers providing reproductive services.

The Goldman Fund also supported a variety of special projects and initiatives that addressed a broad spectrum of issues. Special projects were designed to ameliorate needs that fell outside of the Fund's core focus areas. Projects included support for elder abuse prevention, advocacy for recycled paper use, funding for the American Cancer Society, support for San Francisco-based food distribution centers for the needy, and many others.

Throughout its existence, the Goldman Fund distributed nearly \$700 million to more than 2,500 nonprofit organizations in the San Francisco Bay Area, Israel, and throughout the world. Richard and Rhoda Goldman served on the Fund's Board of Directors until their deaths. The Goldman Fund closed in 2012.

Scope and Content of Collection

The Richard & Rhoda Goldman Fund Records consist primarily of the files generated and received by the Goldman Fund throughout the life of the foundation. The records are divided into four series:

- Series I: Grant Files
- Series II: Publicity Files
- Series III: Administrative Files
- Series IV: Israeli Office

The grant files represent the bulk of the collection and are comprised of materials documenting the solicitation, approval, and progress of individual Goldman Fund grant-awarded programs of nonprofit organizations working in the areas of the environment, Jewish Affairs, Israel, the San Francisco Bay Area, and population, as well as special projects that addressed issues important to the Goldmans. Grant files include: grantee solicitation letters; program progress reports and overviews; as well as award letters, recommendations, and grant contract agreements.

The publicity files contain a variety of materials including correspondence, speeches, photographs, listings of awards and honors, and press clippings - all documenting the activities of Richard and Rhoda Goldman and the Goldman Fund.

The collection also encompasses administrative files from the Goldman Fund, including annual reports and dockets from Goldman Fund Board meetings, as well as reports, memos, letters, and updates from the Board.

The records from the Goldman Fund office in Israel include grant files specific to programs in Israel, including grantee solicitation letters; program progress reports and overviews; as well as award letters, recommendations, and grant contract agreements. In addition, this series also includes administrative records, pertaining to the daily business of the Israeli office, such as office journals, news clippings, memos, and correspondence.
