Separated Materials
Photographs and pictorial materials have been transferred to the Pictorial Collections of The Bancroft Library.
1. Related collection: [Collected reprints] (308x M579 co v.1).
6. Associated collection: The Metcalf-Fritz photograph collection (University of California, Berkeley Marian Koshland Bioscience and Natural Resources Library: BIOS PIC 01).
Alternate Forms Available
There are no alternate forms of this collection.
Acquisition Information
The Woodbridge Metcalf papers were gifted to the Bancroft Library by Mrs Woodbridge Metcalf and the University of California Department of Forestry, 1973-1978.
Accruals
No additions are expected.
Processing Information
Biography
Woodbridge Metcalf (1888-1972) was born in Grosse Pointe, Michigan. He received his B.A. and his M.S. in Forestry from the University of Michigan in 1911 and 1912 respectively. In 1914, Metcalf accepted a position teaching silviculture and dendrology in the newly formed Department of Forestry at the University of California. His scholarly interests and activities included studies of the Coast Redwood, Sierra Redwood, Cork Oak, and Eucalypts. In 1926, Metcalf became the first Extension Forester for California. He would serve in that post for thirty years, dedicating himself to public education in forestry and conservation. As Extension Forester, Metcalf played a key role in the development of rural and forest fire protection programs in California, organized a number of 4-H summer camps at Whitaker's Forest, Las Posadas, and White Oak Flat (among other locations) to teach California youth about forests and the California environment, advocated for better management of farm woods, studied the efficiency of windbreaks in the protection of citrus orchards in Southern California, and managed the University-owned Whitaker's Forest in Tulare County. Metcalf was a life member of the California Conservation Council and served as its president for four years. After retiring in 1956, Metcalf continued to pursue his tree studies and forestry activities. He conducted tree surveys and developed street tree recommendations for the cities of Livermore, Walnut Creek, Hollister, Campbell, and Santa Barbara. He participated in the International Shade Tree Conference and the Street Tree Symposium at Saratoga and was active in the California Christmas Tree Growers' Association. Metcalf was the author of numerous forestry articles and pamphlets as well as censuses of trees in a range of California locations, including the San Francisco Bay region and the campus of the University of California, Berkeley. In addition to his forestry work, Metcalf was a skilled yachtsmen. He and his partner, Glenn Waterhouse, won the International Star Class World Championships in 1933 and represented the United States in the 1936 Olympic games.

Scope and Content of Collection
The collection consists of six series: correspondence, subject files, work-related organizations and institutions, teaching, notebooks and clippings, and personalia. These series document the scholarly and public service forestry work of Woodbridge Metcalf from the beginning of his career through his retirement years. The correspondence, which is arranged chronologically by year from 1911 to 1972, is both personal and professional. The subject files include general subject files documenting Metcalf's interests and activities with a range of tree species and California locations as well as particular sets of files on his work with eucalypts and fire. These files include research material as well as manuscripts and reprints of some of Metcalf's writings. The files on work-related organizations and institutions date mostly from the 1950s and 1960s and document Metcalf's work with the following institutions, among others: the California Conservation Council, the Saratoga Horticultural Foundation, the Society of American Foresters, Northern California Division, the University of California Agricultural Extension, and the FSX club. Files on Metcalf's teaching include course instruction manuals for a range of Forestry courses at the University of California dating from circa 1917 to 1925 as well as copies of course exams and materials relating to the University of California Forestry camps. Personalia includes biographical materials, genealogy, some family papers, early school notebooks, a file of Metcalf's verses and songs, materials relating to organizations in which Metcalf was personally active, including the Society of Mayflower Descendants, the Berkeley Senior Center, and the City of Berkeley Committee on Aging, and diaries and appointment books. Among the personalia is also a circa 1936 paper (written by Metcalf and Glenn Waterhouse) entitled Yachts of the International Star Class on San Francisco Bay, 1923-1936.

Series 1: Correspondence 1911-1972
Physical Description: 3 linear feet carton 1-2; carton 3, folder 1-12

carton 1  
Correspondence 1911-1962
Scope and Contents
General correspondence arranged chronologically by year. Also includes some folders of correspondence (mostly dating from the 1920s) with specific individuals and institutions, including the United States Weather Bureau; H.B. Walker of the UC Davis School of Agricultural Engineering; the National Fire Waste Council; the San Bernardino County Department of Forestry; D.B. Smith and Company; Berkeley City Manager; California Department of Natural Resources; Crawford and Taylor; Hauck Manufacturing Company; National Board of Fire Underwriters; State of New York Conservation Department; Pacific Coast Association of Fire Chiefs; San Benito County Farm Bureau; Board of Fire Underwriters of the Pacific; UC Berkeley College of Agriculture; California Farm Bureau Federation; California State Firemen's Association; Contra Costa Hills Fire Protection Committee; James P. Fairbank; Fire Protection Engineering Company; Los Angeles County Department of Forestry; Kern County Superintendent of Schools; Pyrene Manufacturing Company; California county agents of the United States Department of Agriculture; United States Forest Service, California District; and California Division of Forestry.

Finding Aid to the Woodbridge Metcalf papers, circa 1886-1972 (bulk 1912-1972)
box 1, Folder 1-4  **Eucalyptus project files circa 1912-1920**
Scope and Contents
Files from a eucalyptus study initiated by the United States Forest Service in 1912 and taken over by the University of California Division of Forestry in 1916. The project's aim was to compile an exhaustive investigation into the growth and yield of various species of eucalyptus in California, with an eye primarily on the commercial prospects of eucalyptus. Files contain measurements and other materials relating to a range of groves and plantations throughout the state of California.

cardfile-box 2  **Eucalyptus project files circa 1912-1920**
Scope and Contents
Project index cards.

oversize-folder 2  **Eucalyptus project files circa 1912-1920**
Scope and Contents
A tract plan for the Los Berros Land and Water Company in San Luis Obispo, Eucalyptus Globul charts, and maps.

carton 11  **General eucalyptus files, circa 1920-1970**
Scope and Contents
Files on a range of eucalyptus subjects, including correspondence, data, and information about the uses of eucalyptus. Files also include some of Metcalf's writings on Eucalyptus and copies of a 1910 study of eucalyptus in California.

Carton 12  **General eucalyptus files circa 1920-1970**
Scope and Contents
Files on a range of eucalyptus subjects, including correspondence, data, and information about the uses of eucalyptus. Files also include some of Metcalf's writings on Eucalyptus and copies of a 1910 study of eucalyptus in California.

box 1, Folder 5  **General eucalyptus files circa 1920-1970**
Scope and Contents
Files on a range of eucalyptus subjects, including correspondence, data, and information about the uses of eucalyptus. Files also include some of Metcalf's writings on Eucalyptus and copies of a 1910 study of eucalyptus in California.

oversize-folder 2  **General eucalyptus files circa 1920-1970**
Scope and Contents
A plan and key for Ed R. Levin Park Eucalyptus Grove in Santa Clara.

Subseries 2.3:  **Fire circa 1920-1965**
Physical Description: 4.5 linear feetCarton 13-16; box 1, folder 6; oversize folder 3-4
Scope and Contents
Files on forest fires, fire prevention, and fire suppression, mostly in California from circa 1920 to 1965.

Carton 13  **Fire subject files circa 1920-1965**
Scope and Contents
Pre-suppression; general fire; general forest fire; Los Angeles County fire plans and other materials (1920s); Angeles National Forest; fire equipment; Trinity National Forest; pre-suppression; and advanced fire training course.
Series 2: Subject files circa 1903-1970
Subseries 2.3: Fire circa 1920-1965

Carton 14
Fires subject files circa 1920-1965
Scope and Contents
Fire control handbook for region 5; Clarke-McNary Law; forest fire economics; history of fire control; general statistics; general reports and articles regarding forest fires; fire studies; Berkeley fire of 1923; fire prevention in New England and the Mid-Atlantic region; bibliography on the effects of fire on forests (1938); historical forest fires; fire in foreign countries; fire prevention, general; statewide prevention; Smokey Bear; fire prevention manuals; loss of life in forest fires; lightening; man-made fires.

Carton 15
Fire subject files circa 1920-1965
Scope and Contents
Climatic factors influencing fires; firebreaks; cover conditions; snag disposal; fire danger rating; fire control handbook and manual; mapping and detection planning; communication; firefighting personnel; firefighting equipment; biological damage from forest fires; firefighting job descriptions; fire research; large fires; brief of Conejos Fire; Board of Fire review, Plumas National Forest; Rattlesnake fire; Board of Fire Review, Trinity National Forest; forms for the analysis of fires; notes on fires in Tuolomne County; Board of Fire review, Ferris Creek Fire; fire suppression; smoke jumping; rural fire protection; the place of fire in forest management; Fox Butte hazard reduction; causes of fire; effects of fire; fire detection; economic aspects of forest fire protection and damage; fire control planning.

Carton 16
Fire subject files circa 1920-1965
Scope and Contents
Fire control planning; protective agencies; miscellaneous annual reports from the Department of Forestry; clippings; fire protection conference; USDA publications regarding fire; preliminary practical fire behavior course; meteorology; fire behavior training; fire spread index; forest fires, other states; fire legislation; fire control policies; cost relations of fire control; forest fire insurance; damage appraisal; Public Interest in Conservation - Fire Control and Reforestation; (Santa Cruz County); State Board of Forestry, fire control; fire protection for grain fields; Berkeley and Contra Costa Hills fire plan (1923); education; American Forest Week; fire signs and posters; state proclamation; camp fire permit registration form; laws, enforcement, instructions to wardens; slash; East Bay Hills Fire Protection Committee.

box 1, Folder 6
Fire subject files circa 1920-1965
Scope and Contents
Fire weather records, 1950.

oversize-folder 3
Fire subject files circa 1920-1965
Scope and Contents
Topographical map relating to the Clear Lake Oaks Fire Control Station in Lake County, California (1948).

oversize-folder 4
Fire subject files circa 1920-1965
Scope and Contents
Forest Service materials, info on water facilities and a 1923 Fire Guard Detail plan for Berkeley.

Physical Description: 2 linear feetCarton 17-18, carton 19, folder 1-4

carton 17,
Folder 1-15

Series 4: Teaching circa 1917-1948
Physical Description: 2 linear feet Carton 19, folder 5-25; carton 25

Teaching files circa 1917-1948
Scope and Contents
Manuals of instruction and exercises for Forestry 49 A-B, Forestry 99, and Forestry 105 (UC Berkeley). These manuals date from the 1930s and 1940s. Also included are copies of exams for Metcalf's courses, a paper on the history of the University of California School of Forestry, and files relating to University of California and Michigan forestry camps.
Series 4: Teaching circa 1917-1948

**Teaching files circa 1917-1948**

**Scope and Contents**
Lecture notes, dating mostly from 1917-1925, for forestry courses at UC Berkeley and also for lectures on forestry given to the general public. File names for lecture notes include: forest protection; fire; fungal diseases; entomology; Forestry 106; dendrology; forest geography; siviculture; grazing; mensuration; administration; wood technology; first aid; county, town and city forests; tactics; forestry and the war; Forestry 128; Forestry 1; Forestry 2; Forestry 22.

Series 5: **Notebooks and Clippings circa 1940-1970**

**Physical Description:** 1 linear feetCarton 19, folder 26-30; carton 20, folder 1-8

**Notebooks and clippings circa 1940-1970**
