Digital Representations Available
Digital representations of selected original pictorial materials are available in the list of materials below. Digital image files were prepared from selected Library originals by the Library Photographic Service. Library originals were copied onto 35mm color transparency film; the film was scanned and transferred to Kodak Photo CD (by Custom Process); and the Photo CD files were color-corrected and saved in JFIF (JPEG) format for use as viewing files.

**Acquisition Information**

Unknown.

**Scope and Content**

The Redwood Manufacturers Company Plant in Pittsburg, Calif. albums contain 274 photographic prints taken circa 1915 to circa 1925. The subject of the albums is the Redwood Manufacturers Co. (Remco), located in Pittsburg adjacent to the U.S. Steel Corporation. Both albums feature scenes from the Remco factory and wharf which include grounds, lumber yards, machinery, a wide array of Remco redwood products -- such as pipes, tanks, doors, balusters, posts, shingles, siding, railing, columns, and models -- and several steam ships. The second album (1905.11965) also pictures residential exteriors presumably featuring Remco products, installation activity, damaged buildings, a loading crane accident, and Remco president C.J. Wood.

Photographers featured in the collection include R.J. Waters & Co. and Frost Photo of Oakland.

Several photographs have been glued to the album pages, thus preventing access to their verso captions.
