Acquisition Information
The Japanese-American Evacuation and Resettlement Photographs were originally part of the War Relocation Authority (WRA) portion of the Japanese-American Evacuation and Resettlement Papers. The WRA designated the University of California, Berkeley Library as the prime depository for WRA record materials outside the National Archives on September 7, 1945. The photographs were transferred with the papers to The Bancroft Library July 3, 1963.

Processing Information
Processing completed by project staff of the Japanese American Evacuation and Resettlement Project. Finding aid completed by project staff of the California Heritage Digital Image Access Project.

This project was funded, in part, by a grant from the U.S. Department of the Interior, National Park Service, Japanese American Confinement Sites Grant Program. Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the U.S. Department of the Interior.

Organizational Note
WRAs original organization has been maintained for Series 1-17. Within the container listing, Volume refers to the physical location where the Library has stored each photograph. Use this number when requesting an original or group of original photographs. Volumes "AX1" and "AX2" refer to oversize enlargements (see above) and should be requested as "BANC PIC 1967.014--AX box 1" (or box 2).

Section refers to the WRA drawer number where the photographs were originally stored. Letters A-J (except I) were used and correspond to Series 1-17 as follows:

Section A: Series 1-4
Section B: Series 5-7
Section C: Series 8-9
Section D: Series 10-11
Section E: Series 12
Section F: Series 13
Section G: Series 14
Section H: Series 15
Section J: Series 16-17

WRA no. refers to WRA's original alpha-numeric numbering system. This alpha-numeric combination is written on the front of the photographs and used to arrange them within the volumes.

Series 18 (Slides) was not numbered by WRA and therefore has only volume and item numbers within each of four sub-series.

Scope and Content
The War Relocation Authority (WRA) records represent the official documentation of the United States agency created to assume jurisdiction over the Japanese and Japanese Americans evacuated from California, Oregon, and Washington by the Western Defense Command, the Fourth Army, and the Wartime Civilian Control Administration (WCCA) during January/February of 1942. During its existence from March 1942 to 1946, the WRA controlled the administration of the relocation centers, administered an extensive resettlement program, and oversaw the details of the registration and segregation programs. Included in their records are administrative files, official publications, reports and surveys, legal papers, correspondence, and photographs and scrapbooks. All of the records except the photographs have been cataloged as BANC MSS 67/14 c.

It is important to note that the photograph collection, as the official documentation of the WRA, reflects the point of view that the WRA wanted to present to the citizens of the United States during World War II. A number of photographs exist in...
x 7 format and as enlargements that one assumes were made for public exhibition. The photographs, presumably created for public exhibition, and the captions accompanying them written by WRA staff, present an idealistic view of the relocation centers which clashes greatly with the harsh realities detailed by many survivors and historians in the decades following the interment.

The collection contains approximately 7000 photographs and 317 Kodachrome slides which have been arranged into 18 series (described below). Series 1-6 and B-11 document day-to-day life and activities in individual relocation centers in California, Arizona, Colorado, Utah, Wyoming, and Arkansas as captured by WRA photographers. The remaining series cover pre-evacuation activities in California only; relocation of evacuees in various states; assembly centers in California; and resettlement activities, primarily in California cities. Most of the photographs are well captioned with information on the photographer, place, date, people, and activities featured in the photographs. Series 18 consists of Kodachrome slides for the WRA lecture "The Wrong Ancestors", and slides of the Granada and Central Utah relocation centers.

Among the WRA photographers is Dorothea Lange. There are 691 photographs by Lange in the collection, 209 of the Manzanar Relocation Center (Series 8), and 482 of pre-evacuation activities in California cities (Series 14). Other WRA photographers include Francis Stewart, Hikaru Iwasaki, Joe McClelland, Tom Parker, Charles E. Mace, Gretchen Van Tassel, and others.

The bulk of the photographs are 5 x 7 inch black and white prints that are housed in 88 volumes. One additional box contains oversize enlargements. In the container listing these enlargements are referred to as being in volume "AX1". Seven additional boxes (stored off-site) contain oversize enlargements duplicating photographs in the volumes. There is currently no concordance for these oversize duplicates.

Subjects and Indexing Terms
Japanese Americans--Evacuation and relocation, 1942-1945--Photographs

Crates of personal belongings are sorted in the central square at this relocation center. Individual owners identify their belongings and provide addresses for delivery of the crates to their barracks.

Photographer: Parker, Tom

Heart Mountain, Wyoming. 1942-09-19 WRA no. E-124  ark:/13030/ft1779n640

Additional Note
Researcher-supplied information: this image is backwards. Heart Mountain viewed from the camp should slope in the opposite direction. Also, tall sign near truck has letters "H I J", for that segment of the alphabet, and they appear as "U H" in reversed view. (The original print made by the FSA is printed backwards. The error is not from later duplication.)

Bird's eye view of quarters for evacuees of Japanese ancestry at Santa Anita Park Assembly Center. Evacuees will be transferred later to War Relocation Authority Centers for the duration.

Attendants register arrivals at Santa Anita Park Assembly Center and assign them, family by family, to new quarters. The family unit is kept intact. These evacuees of Japanese ancestry are transferred later to War Relocation Authority Centers for the duration.

Evacuees of Japanese ancestry are vaccinated by fellow evacuees.

Three sisters, all high school students, awaiting evacuation bus. Evacuees of Japanese ancestry will be housed in War Relocation Authority centers for the duration.

Families of Japanese ancestry with their baggage at railroad station awaiting the arrival of special train which will take them to the Merced Assembly Center about 125 miles away.

These three evacuee students, Cromwell Mukai, from Topaz; Marie Yamashita from Heart Mountain; and Joe Nishimura from Manzanar; are shown leaving the stadium at the University of Nebraska.

Henry Omachi at the transit, a young student of engineering from the Tule Lake Center, now relocated in Cleveland and employed by the National Surveys Company, is here seen at work on the water front with Joe Semanisin, a Caucasian.

Abe Hagiwara, from Minidoka, now boys' work secretary at the YMCA, talks to boys of nine nationalities. Mrs. Hagiwara has a job as typist at the county library.
