Digital Representations Available
Digital representations of original pictorial materials are available in the list of materials below. Digital image files were prepared from selected Library originals by the Library Photographic Service. Library originals were copied onto 35mm color transparency film; the film was scanned and transferred to Kodak Photo CD (by Custom Process); and the Photo CD files were color-corrected and saved in JFIF (JPEG) format for use as viewing files.

**Acquisition Information**

The African Americans in the San Francisco Bay Area photographic collection was a gift of James Abajian in 1985.

**Biography**

James de Tar Abajian (1914-1986), bibliographer and historian of African American history, was the chief librarian of the California Historical Society from 1949-1968. He was also director of the Martin Luther King, Jr. Special Collection at San Francisco Public Library from 1969-1971. Abajian’s writings include *The Black Presence in San Francisco* (1974), *Blacks and Their Contributions to the American West; A Bibliography and Union List of Holdings through 1970* (1974) and *Blacks in Selected Newspapers, Censuses and other Sources: An Index to Names and Subjects* (1977). Abajian presented much of his significant documentary material on African Americans in California and the West, collected throughout his career, to The Bancroft Library in the 1980s. This material includes books, printed ephemera, manuscripts, sheet music, periodicals and photographs. His personal papers were donated to the library after his death in 1986.

**Scope and Content**

This collection of photographs of African Americans in the San Francisco Bay Area consists almost entirely of press photographs collected by James Abajian. Many of the photographs have captions provided by the press photographer or news agency. Photographers include Peter Breinig, Greg Peterson, Joe Rosenthal, Bill Young, Bob Hirschfield, David Randolph, Jerry Telfer, Art Frisch, Ken McLaughlin, and a few others. For a breakdown of subjects, see the series descriptions.
