### Descriptive Summary

**Title:** Caltech Course Lecture Notes,

**Date (inclusive):** 1946-1947

**Creator:** Sabersky, Rolf H.

**Extent:** Linear feet: 0.25

**Repository:** California Institute of Technology. Archives.  
Pasadena, California 91125

**Language:** English.

### Access

Collection is open for research.

### Publication Rights

Copyright has not been assigned to the California Institute of Technology Archives. All requests for permission to publish or quote from manuscripts must be submitted in writing to the Head of the Archives. Permission for publication is given on behalf of the California Institute of Technology Archives as the owner of the physical items and is not intended to include or imply permission of the copyright holder, which must also be obtained by the reader.

### Preferred Citation

[Identification of item, Box and file number], Caltech Course Lecture Notes, Archives, California Institute of Technology.

### Collection Description

Rolf H. Sabersky was born in Berlin, emigrated to the U.S. and began his undergraduate studies at Caltech in 1939, receiving his bachelor's degree in 1942 and a master's degree in 1943. After World War II, he returned to Caltech for graduate study, completing his PhD in mechanical engineering in 1949. He continued at Caltech in a faculty position until his retirement in 1988; his specialization was in fluid mechanics and heat transfer. The small collection consists mainly of notes for AE266, Theoretical Aerodynamics of Real and Perfect Fluids, taught in 1946-47 by Clark Millikan and Homer Joe Stewart. Also included are sample tests relating to undergraduate standing matters. These papers were donated to the Archives by Dr. Sabersky in July, 1998.
