Descriptive Summary

Title: California Water and Related Energy in Orange County, California

Dates: Late 18th Century to date

Collection Number: SC.08

Creator/Collector:

Extent: 135 boxes (168 linear ft.)

Repository: California State University, Fullerton. University Archives and Special Collections
Fullerton, California 92834-4150

Abstract: The collection includes materials on the history of water management in California, alternative resources, energy relating to water, flood control, hydrology, water quality (including desalination, sea water barrier, reclamation), and water supply and demand (including drought, conservation, irrigation). The majority of the collection is primarily drawn from Orange County agencies: Municipal Water District of Orange County, Orange County Flood Control District, and Orange County Water District. Also included are papers from the Metropolitan Water District of Southern California and a dozen other state, federal, and independent groups.

Language of Material: English

Access

The collection is open for research.
