Biographical note
"Percy A. Bivins received a partial course in civil engineering in the State University of Iowa and operated as a railway locating and constructing engineer in the western United States and Mexico. As a locating engineer, he was associated with economic studies of railway operations. For the past twelve years, he has been an industrial engineer of The Standard Textile Products Company of New York, a concern which was a pioneer in studies of industrial economics and the use of business graphics." -- from Industrial Management, June 1922, Volumes 63-64, p. 355.
