Collection Number: MC/03

Creator/Collector:

Extent: 2 linear feet (2 boxes); 300+ items

Repository: California State University, Northridge. Oviatt Library Map Collection
Northridge, California 91330

Abstract: The Flood Insurance Rate Map Collection contains a series of maps highlighting areas of potential flood risk throughout Los Angeles County. The maps were produced by the Federal Emergency Management Agency (FEMA) as part of the National Flood Insurance Program series. Maps from the collection include both incorporated and unincorporated areas of Los Angeles County, emphasizing areas of the County that contain creeks, channels, reservoirs, and other permanent or seasonal waterways. The bulk of the collection dates from the 1980s to the 1990s, with some maps from the 1970s and 2000s. Flood insurance maps also include municipal details like roads and highways.

Language of Material: English

Access

Collections are open for research. Viewing hours may be limited.

Preferred Citation

Flood Insurance Map Collection . California State University, Northridge. Oviatt Library Map Collection

Acquisition Information

Collected and managed by the Oviatt Map Collection.

Scope and Content of Collection

The Flood Insurance Rate Map Collection includes more than 300 maps collected and managed by the Oviatt Map Collection to support research within the Oviatt Library. Maps detail locations from the City and County of Los Angeles, featuring both incorporated and unincorporated areas. Maps are folded to approximately 23 x 10 cm and generally include panel titles, indexes, and map keys. Scales vary.
