Immediate Source of Acquisition
The W.K. Kellogg Arabian Horse Library actively collects postcards and notecards related to the W.K. Kellogg Ranch, Manor House, and Kellogg Company. Materials in the collection have been both purchased by and donated to the Library.

Biographical / Historical
In 1925, cereal magnate W.K. Kellogg established an Arabian horse breeding program at his winter ranch home in Pomona, California. The Kellogg Ranch became a popular destination for 1920s Hollywood stars and the horses were showcased for the public at Sunday shows.

W.K. Kellogg donated the ranch to the state of California in 1932 with the stipulation that the Arabian breeding program and Sunday shows continue. During World War II, the ranch was used by U.S. Army as a remount depot to breed horses for the cavalry.

After the war, the ranch was briefly administered by the Department of Agriculture before being turned over to California State Polytechnic College San Luis Obispo for use as their southern branch in 1949. The campus grew rapidly in the post-war period and Cal Poly Pomona was established as a separate school in 1966. Cal Poly has maintained the Arabian horse breeding program and Sunday shows to the present day according to W.K. Kellogg’s wishes.

Scope and Contents
The majority of the collection contains postcards depicting the horses of the W.K. Kellogg Ranch, which are organized alphabetically. The other three series in the collection include postcards depicting the Kellogg Company, the Kellogg House, and the W.K. Kellogg Ranch, which are also organized alphabetically.

Abu Farwa 1960
Physical Description: 1 item
Scope and Contents
Verso [1940-1972 Abu Farwa's name is practically synonymous with combination of Arabian type and performance ability. He became one of the breed's greatest series, one of the few truly top rank, elite stallions. Though Abu Farwa was bred by the Kellogg Ranch, his career was made by his long-time owner H.H. Reese. As an individual, he was outstanding, but his supreme value lay in his ability as a sire to transmit the type and character of his Crabbet heritage, especially his lovely forehead, overall balance and symmetry as well as his great trotting ability. Abu Farwa founded a veritable dynasty of champions. Among his 277 get, are such champion-siring sons as, Ga'zi, Abu Baha, Galan, Farlowa and Antezeyn Skowronek.]

Verso: [1921-1944 Antez, a strikingly handsome stallion, was bred by F.E. Lewis. He was a popular early day stallion of pure Davenport breeding. Antez was exported to Poland after he attracted the attention of Polish breeders with his impressive times in a racing trial. Antez stood in Poland for three years, siring ten foals. Of the ten foals, three became successful racers and one, Haschem Bey, won the Polish Derby. Unfortunately, all of his Polish born progeny were lost in WWII. Antez returned to the U.S. and spent his last years at the H.H. Reese Ranch. He sired 53 foals in the American stud book, including some extremely influential sons such as, Latif, Ankar, Gezan and Sartez.]
