Access

While the majority of the records are open for research, any access restrictions are noted in the record series descriptions.

Administrative Note

The California State Archives received the records of the Assembly Education Committee over a number of years and archives staff arranged them at various times. While the physical arrangement of the records reflects this variety, this inventory describes all of the records according to present archival descriptive standards for legislative committee records. Therefore, the physical arrangement of these records does not necessarily follow the inventory's order.

The researcher should note that the Archives did not receive records for many of the years of the committee's existence. As the finding aid is meant to be a guide to using the records we do hold, the Committee History and Scope and Content sections may be incomplete; further research is encouraged. It is anticipated that the Archives will receive further records from the Assembly Education Committee. Researchers should check the accession binders in the Archives Reference Room as well as the State Archive on-line catalog Minerva for recently received, unprocessed records.

Publication Rights

For permission to reproduce or publish, please contact the California State Archives. Permission for reproduction or publication is given on behalf of the California State Archives as the owner of the physical items. The researcher assumes all responsibility for possible infringement which may arise from reproduction or publication of materials from the California State Archives collections.

Acquisition and Custodial History

The State Archives received these records in accordance with California Government Code 9080(b) which requires legislative committees to transfer their records to the State Archives when they are no longer needed by the committee.

Committee History

The history of the Assembly Education Committee dates to the first legislative session of 1849, thus predating California's admission into the Union. On Tuesday, December 18, 1849, the ninth standing committee of the House to be created was that of Education (1849 Assembly Journal, page 580). It appears that the primary purview of this committee was that of public schools. While the new legislature set about establishing a new government, California officially became the 31st state of the United States of America on September 9, 1850. By 1875, the legislative scope of the committee included "the State Normal School, the State Board of Education, Agriculture, Mining and Mechanics' Art College, and the State University" (1875 Assembly Journal, page 45).

While the records and sources prior to the mid-twentieth century are incomplete, the jurisdiction of the Assembly Standing Committee on Education seems to have changed little in the 160 years of its existence, while the name has not changed at all. By 1995, the jurisdiction of the standing committee had expanded into several specific areas: "adult education, certified employees of schools and teacher salaries, charter schools, leasing of school property, K-12 education, pupil records, school buses and crossing guards, and school facilities and finance" (1995-1996 Assembly Journal, page 4937). As of 2010, the Assembly Education Committee remained relatively unaltered: "education generally, certificated employees of schools, school finance, and school facilities" (Assembly Education Committee webpage, 9/2010).

When the Legislature was in need of specific information on an educational topic, it often created an Interim Committee by House Resolution. These committees were created near the end of each session, though they were not necessarily active during every interim. The interim committees also had only a limited timeframe within which to operate. In 1948, House Resolution 74 created the Interim Committee on Public Education, though in 1951 the interim committee would acquire the same name as its standing committee counterpart (HR197, 1951). Between 1948 and 1972, the interim committee performed many, if not all, hearings within a given legislative session. Since 1973 there has been no interim recess period. From 1951 to 1975, subcommittees also performed extensive work for education.

The most significant subcommittee is that of Higher Education, first created by HR280 in 1957. Its purpose was to study "the needs of educational facilities, sites, and curriculum for higher education beyond the 12th grade" (1957 Assembly Journal, page 6536). During this early period, the subcommittee was primarily engaged with studying the development and administration of state and junior colleges, tuition, and the development of a Master Plan for Higher Education. From 1976 to 1984, this subcommittee had the name of Postsecondary Education, and in 1977 it held a hearing regarding the Bakke Decision. In *Regents of the University of California v. Allan Bakke*, the United States Supreme Court held that while affirmative action systems are constitutional, a quota system based on race is not. In 1985, the original subcommittee name was reinstated. For the next five years, under the chairmanship of Tom Hayden, the subcommittee delved into the social and structural challenges facing both college students and the institutions themselves. In 1991, this subcommittee became the Standing Committee on Higher Education. The jurisdiction of the standing committee concerned: "academic research partnerships with the private sector, community college job training programs, postsecondary education, financial aid and campuses." (1995-1996 Assembly Journal, page 4938)

Another noteworthy subcommittee, the Subcommittee on Educational Reform, was created January 19, 1976, by Assembly Speaker Leo T. McCarthy and remained active during most legislative sessions through 1990. The subcommittee focused on the administrative aspects of institutional improvements, the feasibility of introducing reforms rather than public popularity. The researcher should be aware of the somewhat fluid nature of special, select, joint, ad hoc, and subcommittees related to education. For example, the subcommittee on Higher Education coexisted with a Joint Committee on Higher Education in 1969 and would become a standing committee in 1991. Additionally, there have existed numerous committees, commissions, boards, agencies, etc. which have related or overlapping jurisdictions as the Assembly Education Committee. For a complete list of standing committee chairs, please see Appendix A in Additional Information.

Scope and Content

The records of the Assembly Committee on Education and its numerous subcommittees contain a total of 138.5 cubic feet of textual, audiovisual, and photographic material. The collection is organized with the records of the standing committee first, followed alphabetically by the subcommittees. The subcommittees of most significance are that of Educational Reform and Higher Education; thus, they are the only ones mentioned within this descriptive section.

The standing committee records make up 94.5 cubic feet of the total collection. The series found within the standing committee records include Bill Files (1971-2008), Hearing Files (1952-1984), Subject Files (1968-1980), Consultant's Legislative Files (1969-1974), and Reports (1850-1986).

The Bill Files document the legislative bills directed to the Committee on Education. Notable legislation considered by the standing committee in recent years includes AB2310 (Firestone, 1995-1996) Bilingual Education; AB222 (Kuehl, 1999-2000) The Dignity for All Students Act; and SB740 (O'Connell, 2001-2003) Charter schools. This variety of topics reflects the broad reach and scope of the Assembly Education Committee.

The Hearing Files pertain to the standing committee's investigation of certain topics. Since 1952, the hearings of the standing committee have reflected a balance between social and administrative issues.

The Subject Files contain information on a variety of topics relevant to the committee. The files often include additional information on an existing bill or hearing file, material related to proposed legislation, or documents related to committee administration. These files deal with a multitude of topics including Bilingual Education, Collective Bargaining, Community Colleges, Early Childhood Education (ECE), Educational Opportunity Program (EOP), Finance, Los Angeles Schools, Preschool Programs, Regional Occupational Centers, R.I.S.E., Special Education, Statewide Testing, University of California, Venereal Disease Education, and Year-Round Schools.

The Reports document the committee's findings on various topics of study referred to them. The files from 1850-1883 primarily concern public schools, while the reports from 1947-1978 constitute the bulk of the files and relate to topics such as Veterans Tax Exemptions, Communist Front Organizations, Elementary Textbooks, Educational Vouchers, and Reorganization of the Education Code. The Consultant's Legislative Files pertain to select bills prepared and developed by the standing committee's staff.

The records of the Subcommittee on Educational Reform include 7 cubic feet of records and contain Bill Files (1979-1988), Hearing Files (1976-1989), Reports (1979), Subject Files (1985), and Committee Reports (1985-1988). The bill files document the legislation directed to the subcommittee. The hearing files pertain to the subcommittee's investigation of such topics as bilingual teachers, vocational education, and school construction. The Report file pertains to school counseling. The subject file relates to the California Teacher's Association. The committee reports chronicle the meetings where the subcommittee considered bills referred to them. Throughout all of the series, the most significant topics are special education, school finance, and vocational education. In the 1985-1986 session, the matter of increasing the age for kindergarten enrollment (AB2569, O'Connell) was of greatest concern, with information on this bill found in the bill, hearing, and committee reports series.

The records of the Subcommittee on Higher Education include 29 cubic feet of records and contains Bill Files (1985-1990), Hearing Files (1957-1966, 1985-1990), Working Papers (1971), AIDS Files (1985-1990), Expansion of Public Postsecondary Education (EPE) Files (1986-1990), Master Plan (MP) Files (1985-1990), Nuclear Laboratories Oversight (NLO) Files (1985-1990), and Subject Files (1985-1990).

The Bill Files created by the Subcommittee on Higher Education document the legislation directed to the subcommittee. Significant topics include The Master Plan for Higher Education (AB462, 1989-1990) and Public Postsecondary Education Transfer Functions (SB507, 1989-1990). The Hearing Files pertain to the subcommittee's investigation of such topics as tuition, facilities expansion among all three segments, AIDS, the CSU system, the UC system, the Master Plan, minorities, student retention, teacher retention, and admissions policy. The Working Papers document the rules, minutes, and reports of the committee. The AIDS Files pertain to the issues and hearings surrounding the UC system and this frightening new disease. The Expansion of Public Postsecondary Education (EPE) Files pertain to the issues surrounding the future of California's higher education facilities. The Master Plan (MP) Files pertain to the review of the Master Plan for Higher Education (mandated by the Education Code to occur at 10-year intervals). The Nuclear Laboratories Oversight (NLO) Files document the complex relationship between the Subcommittee on Higher Education, the University of California (UC) system, the U.S. Department of Energy (DOE), and the Lawrence Livermore and Los Alamos National Laboratories (LLNL and LANL). The Subject Files contain information on a variety of topics relevant to the committee, the chairman, and the area of education in general. The subjects may be additional information on an existing bill or hearing file, material related to proposed legislation, material of special interest to the chairman, or documents related to committee administration. This large series covers a multitude of topics, with much overlap.

The remaining 8 cubic feet of the collection originated from the assorted subcommittees from which the State Archives received records. The subcommittee files focus on specific educational issues and contain series such as Working Papers, Reports, and, primarily, Hearing Files. Researchers should be aware that the State Archives has not received records for many other subcommittees which have also existed.

The researcher should note that the records contain extensive topical overlap. When seeking information about a specific subject, checking for relevance in all series of the standing committee as well as those of various subcommittees is highly recommended.

Series 2 Hearing Files 1952-1984

Physical Description: 111 file folders, 132 audio cassettes, 13 dictabelts.

Arrangement

Arranged chronologically by hearing date.

Access Information

Access to audiovisual material requires the production of use copies.

Scope and Content Note

Hearing files may include testimony, agendas, reports, transcripts, correspondence, memoranda, and background material. Since 1952, the hearings of the standing committee have reflected a balance between social and administrative issues. A sample of significant topics includes Establishing a State Board for the Governing of State Colleges (October 13, 1958), Driver Education (May 17, 1962), Improving Educational Opportunities in Disadvantaged Communities (October 15, 1965), Sensitivity (Sex Education) Training (December 5, 1967), Campus Unrest at State Colleges (January 30, 1968), Special Education Programs (January 12, 1970), Mathematics Achievement (February 20, 1973), Student Financial Aid (October 25, 1973), Teacher Preparation and Licensing Law of 1970, Ryan Act (November 13, 1973), Role of the Public School Principal (November 14, 1977), Bilingual Education Programs (November 29, 1977), Adult and Vocational Education (October 13, 1978), Overcrowding (December 5, 1983), and Teacher Retention (July 3, 1984).

Audio materials have been removed to cold storage and separation sheets are included within the file folders to indicate this. Hearing files from a select or subcommittee may be found under the series descriptions for that committee.

Series 3 Subject Files 1968-1980

Physical Description: 361 file folders

Arrangement

Arranged alphabetically by subject heading.

Scope and Content Note

Subject files may include correspondence, news clippings, articles, reports, and background material. Significant topics include adult education, the Bakke decision, the Commission for Teacher Credentialing, the Jarvis-Gann Initiative (Proposition 13), and the voucher system. The researcher should note that, while the dates of record-keeping for this series are from 1968 to 1980, the approximate dates of creation are from 1937 to 1984. Subject files from a select or subcommittee may be found under the series descriptions for that committee.

Series 4 AIDS Files 1985-1990**Physical Description:** 66 file folders**Arrangement**

Arranged alphabetically by topic.

Scope and Content Note

According to Chairman Tom Hayden, the Subcommittee on Higher Education was responsible for the oversight of the University of California system's operations and budgets. Between 1983 and 1989, the UC Universitywide Task Force on AIDS had received \$40 million from the state, received another \$50 million from the federal government in AIDS research funds, and 75% of Medi-Cal AIDS payments were going to 15 hospitals, all of the UC hospitals included. The Task Force executed this research primarily through clinical studies and individual research projects. It was estimated that the UC hospitals were treating 30% of all AIDS patients in California and feeling overburdened. "The University of California teaching hospitals have become the de facto AIDS health care system in the state of California" (Hayden, 2/24/1989 hearing). Due to these problems, the subcommittee held a series of three hearings, titled "The University of California and AIDS." The first hearing, held November 15, 1988, focused on an overview of the disease and current infection data; the second hearing, held February 24, 1989, examined care and treatment issues; and the third hearing considered education and prevention issues.

The AIDS files contain hearing transcripts, testimony, and agendas; correspondence; bill analyses; and numerous reports, articles, and news clippings. Significant topics found in the files include UC Task Force and the Department of Health Services. Related materials may also be found in the Hearing Files. The researcher should note that, while the date of creation for this subcommittee series is from 1985 to 1990, the approximate dates of record-keeping are from 1983 to 1990.

For a complete list of subjects, see Appendix F in in Additional Series Information.

LP417:1551-1589

Series 5 Expansion of Public Postsecondary Education Files 1986-1990**Physical Description:** 39 file folders**Arrangement**

Arranged alphabetically by subject.

Scope and Content Note

Due to a significant rise in population, the 1988 state legislature predicted an overall increase in postsecondary enrollment of over 30% by 2005. Accordingly, the 1988-1989 Budget Act directed the California Postsecondary Education Commission (CPEC) to conduct a major evaluation of long-range capital outlay and enrollment planning for the three public higher education segments: the University of California, the California State University, and the California Community Colleges. This report would guide the Legislature as well as the three segments in their plans for establishing future campuses. The Subcommittee on Higher Education, also involved in the development of the Master Plan for Higher Education during this time period, saw the opportunity to shape and emphasize the importance of public postsecondary expansion. In this spirit, the subcommittee held a series of four hearings between January 1989 and February 1990 throughout the state. While many participants in the hearings represented cities and regions lobbying to host a new college campus, testimony by CPEC, UC, and CSU executives is also present.

The EPE files contain correspondence, hearing testimony and agendas, legislative and bill analysis, notes and background, reports, press releases, and news clippings. Significant topics include Master Plan, the proposed university site of Taylor Ranch, University of California, and the California Postsecondary Education Commission (CPEC). Related materials may also be found in the Hearing Files.

For a complete list of subjects, see Appendix G in in Additional Series Information.

LP417:1590-1619

Series 6 Master Plan (MP) Files 1985-1990**Physical Description:** 30 file folders**Arrangement**

Arranged alphabetically by subject.

Scope and Content Note

Section 66012 of the Education Code provides for the review of the master plan for higher education at 10-year intervals. Accordingly, Resolution Chapter 175 (ACR162) of 1984 directed the Legislature to establish a Joint Committee for the purpose of reviewing the report by the Commission on the Master Plan for Higher Education (created by Statutes of 1984, Chapter 1507). The Joint Committee on the Review of the Master Plan for Higher Education was authorized to act through June 1987. Most files related to the Master Plan can be found in the records of the Joint Committee and the Commission. Due to the overlapping membership and legislative jurisdiction of the Joint Committee and the Subcommittee on Higher Education, however, some files from this committee are mixed within this series.

The MP files contain correspondence, amendments, reports, charts, background notes, news clippings, articles, and memoranda. Significant topics include Hearings, Workshop, Beyond the Master Plan, and Asian-American and African-American Admissions. Related materials may also be found in the Hearing Files.

For a complete list of subjects, see Appendix H in in Additional Series Information.

Series 7 **Nuclear Laboratories Oversight (NLO) Files 1985-1990**

Physical Description: 53 file folders, 4 audiocassettes

Arrangement

Arranged alphabetically by subject.

Access Information

Access to audiovisual material requires the production of use copies.

Scope and Content Note

The Nuclear Laboratories Oversight (NLO) Files document the complex relationship between the Subcommittee on Higher Education, the University of California (UC) system, the U.S. Department of Energy (DOE), and the Lawrence Livermore and Los Alamos National Laboratories (LLNL and LANL). The laboratories were contracted by the DOE to research nuclear weapons, the UC was contracted by the DOE to oversee the management and operation of the labs, and the state legislature was responsible for the oversight of the UC system's operations and budgets. In 1985, stories of mismanagement and illegal activities at the labs began to surface, casting serious doubt on the abilities of the UC system to properly oversee these facilities. These accumulating concerns resulted in the Subcommittee holding a Legislative Symposium and proposing legislation (both in 1988) that would restructure and tighten the relationship between the UC and the labs for the purpose of improved oversight. Names featured prominently in the NLO files include President Gardner, and Drs. Kidder, Teller, Wood, and Woodruff. Other significant topics include Department of Energy, UC Berkeley, the Academic Senate, and "Star Wars"/Strategic Defense Initiative (SDI).

Audio/videotapes have been removed to cold storage and separation sheets are included within the file folders to indicate this. The researcher should note that, while the dates of creation for this subcommittee series are from 1985 to 1990, the approximate dates of record-keeping are from 1970 to 1990.

For a complete list of subjects, see Appendix I in in Additional Series Information.

Series 8 Subject Files 1985-1990**Physical Description:** 436 file folders, 18 audio cassettes, 1 video cassette**Arrangement**

Arranged alphabetically by subject.

Access Information

Access to audiovisual material requires the production of use copies.

Scope and Content Note

Subject Files contain information on a variety of topics relevant to the committee. The subjects may be additional information on an existing bill or hearing file, material related to proposed legislation, or documents related to committee administration. The files include news clippings, memoranda, legal precedent, reports, and correspondence. This large series covers a multitude of topics, with much overlap. The topics large enough to have their own subtopics include California Community Colleges (CCC), California State University (CSU), University of California (UC), Northwest Animal Center (NAC), (Chairman Tom) Hayden, and Reports. Other topics of note are: Bakke, Drugs, Los Angeles Unified School District (LAUSD), Rape, California Postsecondary Education Commission (CPEC), Asian-American Admissions and/or Pacific Rim, and Financial Aid. Due to the large degree of topical overlap, the researcher is strongly encouraged to review the entire list of subjects before requesting materials.

Audio/videotapes have been removed to cold storage and separation sheets are included within the file folders to indicate this. The researcher should note that, while the date of creation for this subcommittee series is from 1975 to 1992, the approximate dates of record-keeping are from 1985 to 1990.
