Survey History
The Burbank Historic Homes Survey was initiated on July 15, 1991 after the Burbank district was not included in the Santa Clara County Historic Resource Inventory. The survey, conducted under the Santa Clara County Historic Commission and the Burbank Community Council, and lead by Marben Associates, evaluated the historical and architectural significance of homes within the Burbank district. The Survey covered the area located within the perimeters of Bascom Avenue to the West, Meridian to the East, Forest to Wabash in the North and Scott Street to the South.

An evaluation committee, composed of members of the Burbank community, selected twenty historic homes during Phase I. Their selections were based on information and photographs gathered by volunteers under the guidance of Mardi Bennett, project coordinator from Marben Associates, and Natalie Wells, project manager from supervisor Rod Diridon’s office. A final project report on Phase I was published by Marben Associates. The committee met again during Phase II to evaluate additional homes.

Scope and Contents
The Burbank Historic Homes Survey Records consists of research materials relating to the completion of the survey. These materials include: preliminary data records, completed DPR forms, evaluation sheets, photographs and area maps for Phases I and II of the survey. Also included are: guidelines and instructions from the Office of Historic Preservation for the registration of historical resources, correspondence, volunteer and home owner information, and a Burbank Community Council Agenda.
