Scope and Contents
The Richard L. Tieszen papers were collected and created by Tieszen throughout his academic and professional career, which began in 1974 and ended with his death in 2017. Tieszen's study of philosophy began while he was a student at Colorado State University and some of the papers, drafts, and assignments he wrote during these years as well as when he was a student at the New School for Social Research, and Columbia University are included in this collection. After graduation, Tieszen taught philosophy for more than twenty years at San José State University in addition to holding various visiting positions at other colleges/universities, and many papers from those years are included in this collection. They include documents related to classes he taught such as class activity materials, lecture notes and outlines, and paper and test prompts. He also kept copies of correspondence he had with students, colleagues, publishers, and other associations relating to his teaching and research activities. Many correspondences and articles in this collection are printed on the backs of other correspondence and records produced and collected by Tieszen. Among the materials in this collection are notes related to ideas about his professional and academic interests/associations. Tieszen's papers include speech drafts and outlines for various colloquia, seminars, conferences, and presentations that he attended and presented at over the years. He also collected articles related to his research interests and notes in this collection include Tieszen's personal musings on various philosophy/mathematics topics as well as notes and ideas for various papers/articles/books. Among the papers related to articles and books Tieszen authored are draft manuscripts with annotations of both published and unpublished works as well as correspondence with publishers and colleagues related to these writings.
