Administrative History

The Getty Center for the History of Art and the Humanities (GCHAH) was established in 1983 to advance and disseminate research in the history of art and the humanities. The GCHAH was one of the original programs established by the J. Paul Getty Trust, an international cultural and philanthropic organization serving both general audiences and specialized professionals. The Trust is a not-for-profit institution, educational in purpose and character, that focuses on the visual arts in all of their dimensions. As of 2009 the Trust supports and oversees four programs: the J. Paul Getty Museum; the Getty Foundation; the Getty Conservation Institute; and the Getty Research Institute, which, among other things, continues the work begun by the GCHAH.

The GCHAH opened after two years of thoughtful planning on the part of the Trust. In 1981, soon after his appointment as the first president and CEO of the Trust, Harold Williams and his team of advisors made several proposals to the Board of Trustees for programs that could be created to further the Getty's mission of "the diffusion of artistic and general knowledge," as directed by J. Paul Getty's will. The establishment of an arts library had been proposed as early as 1977 by Museum director Stephen Garrett; in February 1982 Williams' chief deputy, Nancy Englander, expanded upon Garrett's idea and outlined a proposed "Center for Advanced Study." This proposed center would include a residence program for scholars, a major expansion of the library, a limited publications program, and an art photo archive. The activities of the center would also focus on preserving historic materials in the field of art history and the development of new reference tools for the field, using the latest in information technologies. The plan was approved, and the program known as the Getty Center for the History of Art and the Humanities officially opened in July 1983.

The GCHAH progressed quickly during its first few years. Architectural historian Kurt Forster became the first director; he was hired in October 1983 and began leading the GCHCH in the fall of 1984. In an effort to create a premier repository for manuscript collections related to artists and the field of art history at the GCHAH, Forster added the Archives of the History of Art. Not only did the Archives serve as a repository for materials on art history, but it also housed the historical records of the Museum and the Trust. In the fall of 1985 the GCHAH launched the Visiting Scholar Program, inviting 17 scholars and fellows to explore the theme "Aesthetic Experience and Affinities Among the Arts."

Due to expanded operations and limited space at the original J. Paul Getty Museum in Pacific Palisades, California, the various programs of the J. Paul Getty Trust were located at different sites throughout the Los Angeles basin during the 1980s and early 1990s. The Trust's vision was to bring together most of their programs at a single site, but until that vision became a reality, the GCHAH was "temporarily" located in the First Federal Building at 401 Wilshire Boulevard in Santa Monica.
Monica, California. The construction of the new Getty Center in Brentwood took longer than originally anticipated and 401 Wilshire was occupied by the GCHAH from 1983 to 1997.

In order to fulfill its commitment to the development and diffusion of research in the history of art and the humanities, the GCHAH supported a variety of activities in resource collecting, scholarship, publications, exhibitions, conferences, and public lectures. 401 Wilshire was a “run-of-the-mill office building” that required considerable renovation to meet the GCHAH’s growing need for both public and working spaces. Batey & Mack, a San Francisco firm, designed the first renovation of the temporary quarters for the GCHAH on two floors (floors 4 and 7) of 401 Wilshire. In 1991, the GCHAH expanded to occupy two more floors (floors 8 and 9), and Richard Meier & Partners, who were concurrently working on the Brentwood project, were retained to renovate the new floors. Floors 5 and 6 were also utilized, though it is unclear when they were first occupied by the GCHAH.

During its occupancy of 401 Wilshire Boulevard the GCHAH used the space as follows:

- 4th Floor: Library, the Archives of the History of Art (later known as Special Collections), Museum curatorial offices (which later became the space for GCHAH Publications), Mailroom, Display space for collections
- 5th Floor: Library
- 6th Floor: Photo Archives (Photo Study Collection), Scholars, and Visual Media Services
- 7th Floor: Administration, Museum Department of Photography, and Gallery (which was open to the public Monday through Friday at no charge)
- 8th Floor: Trust offices
- 9th Floor: Trust offices
- 10th Floor: Museum Department of Sculpture (which later became the space for AccAcc – Accelerated Accessions), Provenance Index, Collection Development, and Vocabularies
- 11th Floor: Art History Information Program and Information Technology Services

Over the years the Getty Center for the History of Art and the Humanities experienced several significant changes. In June 1992 Kurt Forster left the GCHAH, and Tom Reese was promoted to acting director while the Trust conducted a search for a new director. In January 1994 Salvatore Settis became director of the GCHAH. In 1996, in order to avoid confusion with the soon-to-open Getty Center in Brentwood, the GCHAH was renamed the Getty Research Institute for the History of Art and the Humanities. Three years later the program’s name was shortened to the Getty Research Institute (GRI).

**Scope and Content of Collection**

The collection comprises architectural records, photographs, and ephemera documenting the facilities and activities of the Center for the History of Art and the Humanities (GCHAH) of the J. Paul Getty Trust at 401 Wilshire Boulevard in Santa Monica, California from approximately 1980 to 1994. The architectural records consist of blueline prints, blueprints, drawings, models, reports, photographs, slides and negatives (1980-1984, 1991, and undated) related to the 401 Wilshire building. This location was the temporary headquarters of the GCHAH, which grew out of the library at the Getty Ranch House and the Getty Villa. Plans from three architectural firms can be found in the records: Batey & Mack; Neptune & Thomas Associates; and Richard Meier & Associates.

The photographs and ephemera include a set of materials assembled to describe the role of the 401 Wilshire Boulevard building as a space for museum objects and activities while the new Getty Center in Brentwood was under construction. These materials include photographs of exhibitions and other events, event programs, event fliers, and a letter written by Musick, Peeler & Garrett (attorneys) on behalf of the J. Paul Getty Trust to the California State Board of Equalization that describes how the space at 401 Wilshire Boulevard was used for the various activities of the GCHAH. Additional photographs depict the former library at the Getty Villa; the new library, reading room, and office space of the GCHAH at 401 Wilshire Boulevard; The interiors of the facility following the Northridge earthquake (1994); and a site inspection of the Brentwood location, the site of the new Getty Center and future home of the GCHAH program. Some photographs also include staff and researchers at the GCHAH.

Physical Description: 4.6 linear feet (8 boxes)

Scope and Content Note
These records comprise photographs and ephemera related to the Getty Center for the History of Art and the Humanities (GCHCH), including various photographic materials and a report compiled on behalf of the J. Paul Getty Trust. The photographic materials depict the former library at the Getty Villa; the new library, reading room, office space, and a theatrical performance at the GCHAH at 401 Wilshire Boulevard; the interiors of the facility following the Northridge earthquake (1994); and a site inspection of the Brentwood location, the site of the new Getty Center and future home of the GCHAH program. Some photographs also include staff and researchers. Loose photographs consist of 18 black-and-white photographic prints, 24 color photographic prints, approximately 390 slides, 1 sheet and 109 strips of negatives, and 19 contact sheets (1981, 1983, 1994, and undated).

The report serves as a fairly comprehensive overview of GCHCH activities and contains materials assembled to describe the role of the 401 Wilshire Boulevard building as a space for the storage and display of museum and library holdings and scholarly research activities. The report includes photographs of exhibitions and other events, event programs, event fliers from 1987 to 1993, and a 1993 letter written by Musick, Peeler & Garrett (attorneys) on behalf of the J. Paul Getty Trust that describes how the space at 401 Wilshire Boulevard was used for the various activities of the GCHAH.

Arrangement
These records are arranged in no particular order.

Physical Description: (2 binders)

Scope and Content Note
These records comprise a report titled, "The Getty Center for the History of Art and the Humanities, Sales Tax Audit: Vol. I, The Getty Center as a Public Space." The "Getty Center" in this case refers to the GCHAH building at 401 Wilshire Boulevard (prior to the construction of the Getty Center in Brentwood). The materials include photographs of exhibitions and other events, event programs, and other documentation assembled for the purpose of establishing the building at 401 Wilshire Boulevard as a public space and thereby establishing the museum and library holdings therein as exempt from sales tax. The material is prefaced by a letter written by Musick, Peeler & Garrett (attorneys) on behalf of the J. Paul Getty Trust to a representative of the California State Board of Equalization. The letter describes the role of the 401 Wilshire site as a space for the storage and public display of museum and library objects and various scholarly research activities. The letter is dated August 3, 1993 and the supporting documentation dates from 1987 to 1993.

Scope and Content Note

The architectural records reflect the development of the J. Paul Getty Trust, Getty Center for the History of Art and the Humanities (GCHAH) facilities at 401 Wilshire Boulevard in Santa Monica, California. This location was the temporary headquarters of the GCHCH program, which grew out of the library at the Getty Villa. Plans from three architectural firms can be found in the records: Batey & Mack, whose plans were used to create the space; Neptune & Thomas Associates, whose plans do not seem to have been used; and Richard Meier & Associates, who renovated two additional floors for the GCHAH in 1991. The records consist of blueline prints, drawings, architectural models, and reports, 1980-1984, 1991, and undated.

Arrangement

These records are arranged by architectural firm into three subseries:

Series II.C. Richard Meier and Associates,

Physical Description: 2.0 linear feet(2 oversize architectural roll boxes)

Scope and Content Note
Records consist of blueline prints, 1991, created by the architectural firm of Richard Meier and Associates for the J. Paul Getty Center for the History of Art and Humanities, J. Paul Getty Trust. The blueprints were created for floors 8 and 9 of 401 Wilshire Blvd., the administrative offices of the GCHAH. The GCHAH began occupancy of these two additional floors in 1991. The dates listed are the permit dates; each blueprint is marked with the bid, revision and permit dates.
