Extent: 1 pamphlet, 43 pages

Repository: Graduate Theological Union
Berkeley, California 94709

Abstract: This is a report, based on the 1960 census, on the religious composition of the Berkeley-Albany area in 1960. Socio-economic analysis is part of the discussion. The report concludes: “How the Christian faith is to be translated into meaningful appeals to skeptical and indifferent blocks of people will be the primary dilemma of Protestant theology and strategy in the next era into which we are rapidly moving.”
