Agency History
These are photographs that were primarily used in Graduate Theological Union newsletters, Ecumenical Associates News and Currents, as well as other publications, such as the GTU View Book and GTU Catalog, and in brochures. Photographs captured events, conferences, distinguished visitors and lecturers, GTU Presidents, Deans, and faculty, and GTU buildings and member schools. Photographs of the GTU Library have been taken both to publish, and to document the building itself, and the functions within the building. Staff photos, have been taken periodically for identification purposes, to be posted on a bulletin board, or reproduced in a personnel manual so that staff may better know each other.
The development function was first part of the President's Office. The photographs were originally filed in that office. When the function was formed into a separate Development Office, later named the Office of Institutional Advancement, the
photographs were filed with that office.

There has never been a GTU administrative policy concerning when, why, or by whom photographs are to be taken or kept. Not all events (Commencement, Convocation, annual lectures, etc.) have been photographed.

**Scope and Content of Collection**

For the original accession, including photographs from 1965-6/2000, there had been little organization of the photographs since 1965. In the mid-1990s they had been roughly sorted into broad categories in hanging files in the Office of Institutional Advancement. For the most part, they were still in their original paper envelopes from the developer. Most photographs were not identified. If they were, they were only partially identified by only the event, the individuals, or the date. Very rarely was the identification information complete. The GTU Archivist has identified the photographs in the original accession to the best of her knowledge, by researching past newsletters, and by asking people to assist in the identification. Errors are possible.

Photographs will be added to the collection and inter-filed as received, revision dates will not be listed.
