Materials have been added to the collection if the number of boxes listed in the online catalog is larger than the number of boxes listed in this finding aid.

Biographical/Historical Note

American educator; teacher education adviser, Land Hesse, Germany, 1948-1951.

Scope and Content of Collection

The collection consists of various materials relating to the German education system, including newspaper clippings, personal correspondence, and numerous pamphlets that outline pre- and post- World War II conditions of the school system in Germany. Foundational aspects of schooling are described, including teacher qualifications, wages, and building layouts. The conditions in Germany are compared to those of the American school system. Examples of student homework and photographs document the education systems of both countries. Bateman's research cumulated with his dissertation.

Arrangement

Arranged as received by subject or physical form but in no apparent order.
