Title: Karl R. Popper papers
Date (inclusive): 1928-1995
Collection Number: 86039
Contributing Institution: Hoover Institution Archives
Language of Material: English and German
Physical Description: 575 manuscript boxes, 7 oversize boxes, 2 card file boxes, 28 envelopes, 47 sound tape reels, 4 sound cassettes, 11 sound discs (248.4 linear feet)
Abstract: Speeches and writings, correspondence, notes, printed matter, sound recordings, and photographs relating to philosophy, the nature of knowledge, the philosophy of culture, the philosophy and methodology of science, and the philosophy of history and the social sciences.
Physical Location: Hoover Institution Archives
Access
Microfilm use only; materials must be requested at least two business days in advance of intended use.
Publication Rights
For copyright status, please contact the Hoover Institution Archives.
Acquisition Information
Acquired by the Hoover Institution Archives in 1986, with increments added at a later date.
Accruals
Materials may have been added to the collection since this finding aid was prepared. To determine if this has occurred, find the collection in Stanford University's online catalog at https://searchworks.stanford.edu. Materials have been added to the collection if the number of boxes listed in the online catalog is larger than the number of boxes listed in this finding aid.
Preferred Citation
[Identification of item], Karl R. Popper papers, [Box no., Folder no. or title], Hoover Institution Archives.
1902 July 28 Born, Vienna, Austria
1926 Ph.D., University of Vienna
1930 Married Josefine Anne Henninger (1906-1985)
1934 Author, Logik der Forschung
1930-1935 Schoolteacher, Vienna
1937-1945 Senior Lecturer in Philosophy, Canterbury University College, University of New Zealand, Christchurch
1945 Author, The Open Society and Its Enemies
1945-1949 Reader in Logic and Scientific Method, London School of Economics and Political Science, University of London, England
1949-1969 Professor of Logic and Scientific Method, London School of Economics and Political Science, University of London
1954 Author, Miseria dello storicismo
1962 Author, Conjectures and Refutations: The Growth of Scientific Knowledge
1965 Knighted
1972 Author, Objective Knowledge: An Evolutionary Approach
1976 Author, Unended Quest: An Intellectual Autobiography
1977 Co-author (with John C. Eccles), The Self and Its Brain: An Argument for Interactionism
1979 Author, Die beiden Grundprobleme der Erkenntnistheorie
1982-1983 Author, Postscript to The Logic of Scientific Discovery
1983 Author, A Pocket Popper
1984 Author, Auf der Suche nach einer besseren Welt
1986- Head, Ludwig Boltzmann Institut fur Wissenschaftstheorie, Vienna
Scope and Content Note
Speeches and writings, correspondence, notes, printed matter, phonotapes, phonorecords, and photographs, relating to philosophy, the nature of knowledge, the philosophy of culture, the philosophy and methodology of science, and the philosophy of history and the social sciences.
Described in two groups: the original collection (Boxes 1-463) and incremental materials acquired at a later date (Boxes 464-584).
Subjects and Indexing Terms
Knowledge, Theory of.
Science--Philosophy.
Science--Methodology.
History--Philosophy.
Social sciences--Philosophy.
Civilization--Philosophy.
Philosophy.
Philosophers.
Sound recordings.
Audiotapes.

SPEECHES AND WRITINGS I 1928-1986
Scope and Contents note
Conference papers, drafts of books, essays, notes, reviews, speeches, and related correspondence, arranged chronologically.

SOUND RECORDINGS 1953-1978

Scope and Contents note
Sound tape reels, sound cassettes, and sound discs of lectures, seminars, and speeches, arranged by format and chronologically thereunder.

Sound tape reels

Unidentified sound recording (sound tape reels 1-3) undated

Conditions Governing Access note
Use copy reference number: 86039_a_0001891 (tape 1), 86039_a_0001892 (tape 2), 86039_a_0001893 (tape 3)
Scope and Contents note
Tape 1: Circularity (paradox of circularity); Non ad hoc element: [?] consequences than A, holism, independently testable of singular explicans; How Newton explained Kepler and how a theory degenerates into a circular explanation; Poincare's idea of [?] as languages; Einstein's theory smashed Poincare's methodology because it did not endorse the simplest geometry; Detailed a/c of Einstein's [relativity?] to predecessors showing how it escaped the feeling of circularity; Historical and logical aspects of the development of science. This sound recording is an answer to a question (in an American voice) about one connection between generality and independent testability. It is post-1959, since the questioner is invited to consult a book of that year. (Description copied from handwritten notes by I.C. Jarvis, 15 April 1992 that are included in the reel box.)
Tape 2: Precedes Tape 1; Growth of knowledge is a bootstrap problem; Understanding of problems, failing at solving it; Mentions Prof. Gill or Hill; Understanding is not mental pictures. Obviously a formal lecture as it ends at 9PM with applause. Then questions begin: Question on failure and success; Truths about plant classification. (Description copied from handwritten notes by I.C. Jarvis, 15 April 1992 that are included in the reel box.)

Sound recording of music (sound tape reel 4) undated

Conditions Governing Access note
