San Marino, California 91108
Phone: (626) 405-2191
Email: reference@huntington.org
URL: http://www.huntington.org
Abstract: This collection consists of seven photograph albums documenting a range of departmental activities of the Los Angeles County Department of Health from approximately 1930 through 1932. The photographs depict such things as housing, schools, sewage disposal plants, diary farms and milk plants, garbage and refuse disposal, and general sanitation in areas across Los Angeles County. The collection notably includes a volume documenting temporary encampments known as "Hoover Towns," which sprang up during the Great Depression, as well as a volume showcasing the "state-of-the-art" housing for Olympic athletes during the 1932 Olympics held in Los Angeles.
Language: English.
Note:
Finding aid last updated on November 16, 2015.
Access
Open to qualified researchers by prior application through the Reader Services Department. For more information, contact Reader Services.
Publication Rights
The Huntington Library does not require that researchers request permission to quote from or publish images of this material, nor does it charge fees for such activities. The responsibility for identifying the copyright holder, if there is one, and obtaining necessary permissions rests with the researcher.
Preferred Citation
[Identification of item]. Los Angeles County Department of Health Services Collection, The Huntington Library, San Marino, California.
Provenance
Gift of the Los Angeles County Health Administration/Management and Health Systems Agency Libraries, June 1996.
Conservation Note
Each volume has had some conservation treatment with the level of treatment varying from minimal to extensive. A brief account of the action taken follows:
photCL 396 vol 1:
Photographs were originally attached to black papers pages and album covers were missing. Images and text were removed from backing and original order maintained.
photCL 396 vol. 2-vol. 3:
Photographs and typewritten captions were removed from black paper pages and put into mylar sleeves. Original order maintained.
photCL 396 vol4:
Album pages were xeroxed showing photographs with text to serve as reference copies for researchers. Photographs were removed from album corners and stored separately in non-buffered sleeves. Retained original album pages and text which is stored in separate envelope.
photCL 396 vol. 5:
Transcribed captions accompanying each photograph which were glued onto black pages. Removed photographs and other text from original album. Discarded original photographic album with paper captions due to dust and dirt from black paper. Map of Olympic Village was flattened and encapsulated in mylar.
photCL 396 vol. 6:
All images uncaptioned. Removed black pages from album and trimmed. Interleaved with unbuffered paper and put in acid free folders.

Scope and Content
This collection consists of seven photograph albums documenting a range of departmental activities of the Los Angeles County Department of Health, from approximately 1930 through 1932. The volumes include photographs of the following subjects:

- The Habitations of Unemployed in Los Angeles County, 1932 (volume 1)
- Activities of the Bureau of Inspection, 1932 (volume 2)
- Sewage Disposal Methods in Los Angeles County (volume 3)
- Picture Story of Milk in Los Angeles County (volume 4)
- Olympic Village, Los Angeles, 1932 (volume 5)
- Miscellaneous Scenes of Los Angeles County Department of Health Activities and Buildings (volumes 6-7)

The Bureau of Housing and the Bureau of Inspection are two of the divisions represented in the collection. The photographs depict such things as housing, schools, water supply, swimming pools, sewage disposal, dairy farms and milk plants, garbage and refuse disposal, and general sanitation to name but a few topics. Of particular interest is the volume documenting the "Hoover Towns" which sprang up throughout Los Angeles during the Great Depression (Volume 1). In contrast is the volume showcasing the "state-of-the-art" housing for Olympic athletes who were in Los Angeles for the Tenth Olympiad in 1932 (Volume 2)

The photographers represented in these volumes are unidentified except for an instance where initials are provided. Volume 4 was compiled by Richard A. Koch and volume 5 was compiled by C. G. Kahlert. The majority of the images are accompanied by lengthy captions and they are transcribed in the finding aid where practical.

Alternative Form of Materials Available
Visit the Huntington Digital Library to view digitized items from this collection.

Arrangement
The collection includes volumes one through seven. Each photograph has a unique number.

Indexing Terms
The following terms have been used to index the description of this collection in the Huntington Library’s Online Catalog.

Subjects
Los Angeles County (Calif.). Health Department -- Photographs.
Olympic Games (10th : 1932 : Los Angeles, Calif.) -- Photographs.
Depressions -- 1930-1932 -- California -- Los Angeles County -- Photographs.
Dairying -- California -- Los Angeles -- Photographs.
Refuse and refuse disposal -- California -- Los Angeles County -- Photographs.
Sewage disposal plants -- California -- Los Angeles County -- Photographs.
United States -- History -- 1930-1933.

Forms/Genres
Photographs.
Photograph albums.

Added Entries
Koch, Richard A., compiler.
Kahlert, C. G., compiler.

Box 1, Volume 1
The Habitations of Unemployed in Los Angeles County. Photographs Taken by the Los Angeles County Health Department March 23, 1932.

Scope and Content Note
A collection of photographs taken at the sites of several temporary encampments throughout Los Angeles County during the Great Depression. Several of these images show a "Hoover Town", or Hooverville, in the Graham neighborhood of Los Angeles.
Item 1
**Glendale. December 7, 1931.**
Scope and Content Note
Private dump about 900 block on San Fernando Road. This house, occupied by one old man, is constructed of material picked up on dump and consists chiefly of old boxes and cardboard.

Item 2
**Glendale. December 7, 1931.**
Scope and Content Note
This picture shows three one-room shacks, constructed of waste material picked up from the adjoining dump.

Item 3
**Glendale. December 7, 1931.**
Scope and Content Note
The owner of this house moved out quickly. He demolished most of the house and moved on to another location. This picture shows the general construction -pieces of old lumber and cardboard cartons.

Item 4
**Glendale. December 7, 1931.**
Scope and Content Note
These three houses were of fairly good construction. The one on the right, having a cement floor, tight roof and side walls, and a good door with glass. All of these houses on the Glendale dump were destroyed, and the occupants forced to move.

Item 5
**Graham. February 4, 1932.**
Scope and Content Note
85th and Lou Dillon Street -About 45 families settled on a 5 acre tract under auspices of one of the churches. This place was known as Hoover Town. Some of the families were receiving aid from the County Welfare Department, but others were being fed by the agency in charge when help was needed. [Photo shows hand-painted sign with words Hoover Town”]

Item 6
**Graham. February 4, 1932.**
Scope and Content Note
This picture gives a panoramic view of Hoover Town looking South. All the dwellings and shacks were place in 3 straight rows; there being about 42 families at this location.

Item 7
**Graham. February 4, 1932.**
Scope and Content Note
This picture shows the first group of tents and shacks along 85th Street.

Item 8
**Graham. February 4, 1932.**
Scope and Content Note
This is a picture of 2nd Avenue looking West showing general construction of houses.

Item 9
**Graham. February 4, 1932.**
Scope and Content Note
The occupants of Hoover Town try to keep clean to the best of their ability, but have no means of disposal of their waste matter. This man has solved the problem by scattering it in the street.

Item 10
**Graham. February 4, 1932.**
Scope and Content Note
2 Fly-tight privies were constructed under supervision of the County Health Department, for use of occupants of Hoover Town.
Item 11  **Michillinda. February 17, 1932.**
Scope and Content Note
A view of three of the shacks constructed of waste material picked up on dumps in this vicinity.

Item 12  **Michillinda. February 17, 1932.**
Scope and Content Note
Muscatel Avenue and Huntington Drive -9 shacks were located on a plot of ground consisting of 4 acres. Each shack being inhabited by one or two unemployed men. No families were found on this location.

Item 13  **Duarte. February 17, 1932.**
Scope and Content Note
Duarte Road and Mountain Ave. -These 4 shacks were occupied by single men, some of whom found occasional jobs.

Item 14  **Duarte. February 17, 1932.**
Scope and Content Note
This close-up view shows construction of one of the shacks with motto "God Bless Our Home" posted over the door.

Item 15  **Duarte. February 17, 1932.**
Scope and Content Note
This picture shows an open-pit toilet. However, in the can is shown a scoop for scattering chloride of lime on pit contents.

Item 16  **Pico. February 25, 1932.**
Scope and Content Note
Beverly Blvd. and Workman Mill Road. 3 shacks in river bottom all inhabited by single men.

Item 17  **West Whittier. March 9, 1932.**
Scope and Content Note
Workman Mill Road and Union Pacific Railroad. Group of one-room shacks in gum grove, east of Workman Mill Road. Note general cleanliness of ditch and fly-proof privy erected at this end of camp. Toilet facilities were provided through the effort of the Chief District Sanitary Inspector of the Whittier Districts.

Item 18  **Bandini. March 9, 1932.**
Scope and Content Note
This picture shows 3 of a group of 9 shacks located on the bank of the Los Angeles River and all occupied by single men.

Item 19  **Bandini. March 9, 1932.**
Scope and Content Note
3700 block Bandini Road. -This 3 sided shed was occupied by men who worked on an adjacent dump. The extreme left shows entrance to bedroom in rear which consisted merely of a shelf covered with bed-clothes and rags.

Item 20  **Bandini. March 9, 1932.**
Scope and Content Note
Another shack of a dump-picker showing part of salvage material which he had picked up.
Item 21  Bandini. March 9, 1932.
Scope and Content Note
This shows means of sewage disposal used at this camp. In the rear will be seen a metal lid which was used to cover the pit.

Item 22  Santa Monica. March 10, 1932.
Scope and Content Note
Interior of kitchen of one of the shacks. This occupant was pressing his trousers at time of inspection. The place was fairly clean and well constructed.

Item 23  Santa Monica. March 10, 1932.
Scope and Content Note
Interior of one of the shacks showing inside construction of shack. This group seems to be of a literary turn of mind. [Man on bed reading].

Item 24  Santa Monica. March 10, 1932.
Scope and Content Note
A man reading a magazine in the doorway, stated his willingness to work but said he was unable to find anything to do.

Item 25  Santa Monica. March 10, 1932.
Scope and Content Note
Sunset Station -This group of shacks was occupied by single men and was located close to a brick yard, as evidenced by the surrounding scenery.

Item 26  Saugus. March 14, 1932.
Scope and Content Note
This is a picture of the south end of bridge showing what the occupants called the "Cheap Hotel." This end of the bridge was used mostly by itinerants. The north end of the bridge being used by those who stayed in this vicinity for some time.

Item 27  Saugus. March 14, 1932.
Scope and Content Note
The underneath side of the bridge leading to the ridge route sheltered one dozen men. This is a view of the north end of the bridge which contained the better class quarters.

Item 28  Graham. March 18, 1932 The Children's Hour at Hoover Town. Here are a dozen good reasons why better housing conditions should be provided for these people. [Group of children in circle listening to story being read]. 29 Graham.
Scope and Content Note
March 18, 1932 -This is a close-up view of some of the late arrivals. Note construction of stove on extreme left, and condition of bed-clothes hanging out on the right.

Item 30  Graham. March 18, 1932.
Scope and Content Note
Hoover Town has added 2 more rows of habitation within the last month. This is a view of 3rd Street looking East.

Item 31  Bandini. March 18, 1932.
Scope and Content Note
This family originally lived in the tent shown on the right, and gradually picked up enough sheet metal to construct the fairly well constructed house now attached to it. One large family occupied this place.
Item 32

Bandini. March 18, 1932.

Scope and Content Note

Near 26th and Atlantic - Tent and 2 shacks housing several families and constructed of material picked up on near-by dump. Cooking was done on the outside, at the right. A few rabbits and chickens were kept in the pen at left.

Los Angeles County Department. Activities of the Bureau of Inspections [1931].

Scope and Content Note

An album containing 65 photographs of members of the Los Angeles County Department of Health Services, their activities, and many of the places they were responsible for inspecting. These sites include sewage plants, garbage dumps, dairy farms, swimming pools, beaches, and health centers.

Item 1

2-20-31 . Group of Chief and Acting Chief Inspectors and members of the faculty. Inspectors had trouble taking notes in these chairs.

Item 2

2-26-31 . San Gabriel Dam Labor Camp. Exterior of bath house showing rack for wash basins and vents and clean-out holes for chemical toilets.

Item 3

2-26-31 . San Gabriel Dam Labor camp laundry and incinerator.

Item 4

2-26-31 . San Gabriel Dam Labor camp - group of two room bunk houses, each room to hold four beds.

Scope and Content Note

In the background is the dining hall and on the right in the recreations hall, post office and company store.

Item 5

2-26-31 . San Gabriel Dam labor camp - from left to right bath house, dining hall, recreational hall and on extreme right waste water line carried on suspension bridge across gulley.

Item 6

2-26-31 . San Gabriel Dam labor camp - tank of chemical closet installed in the four-room cottages.

Item 7

2-25-31 . San Gabriel Dam labor camp - building containing water pump and chlorinator which are part of the domestic water system. Water pumped from well sunk 30 feet from stream.

Item 8

2-27-31 . Feeding time at hog farm located at Monrovia Sewage Farm. Collection by private contractor.

Item 9

Item 10

5-7-31 . Monrovia Health Center opening - south view.

Scope and Content Note

Item 11

5-7-31 . Monrovia Health Center opening. - Dr. Furstman, District Health Officer, in foreground.

Item 12

5-7-31 . Cudahy. Pond of water at Elizabeth Street dump breeding mosquitoes.

Item 13

5-7-31 . Cudahy. Elizabeth Street dump. View of tin cans and rubbish looking from South. Chicken ranchers in this vicinity complained of rat nuisance caused by the dump.

Item 14

5-7-31 . Cudahy. Elizabeth Street dump. View of interior of small insanitary one-room house of dump attendant. A few days after this picture was taken, the occupant was taken to the county hospital where a few days later he died of an undetermined disease.

Item 15

Item 16

Item 17

Item 18

5-7-31 . Bell. Clara Street Dump. This dump was moved fifty feet from cleared land on the left which is in county territory. The County Health Department condemned the dump and the city of Bell allowed it to move within the incorporated limit.

Item 55 7-13-31. Topango Canyon. Condition of beach on Monday morning. This section was littered with cans, garbage, broken glass, discarded clothing and old newspapers.

Item 56 7-13-31. El Segundo. Standard Oil Co. beach showing garbage and half burned rubbish.

Item 57 7-13-31. El Segundo. Standard Oil Co. beach. This is immediately adjacent to a state controlled beach at Manhattan. Rubbish and garbage make it unpleasant and dangerous for barefoot bathers.

Item 58 7-13-31. County territory near Inglewood. Roadside peddler selling tomatoes from rear end of truck. On extreme left is large pile of decaying vegetables which the peddler will leave when he removes his truck in the evening.

Item 60 7-13-31. Inglewood Health Center as viewed from the porch.

Item 61 7-20-31. Flashlight view of culvert used as toilet by campers on beach one mile north of Topango [sic] Canyon.

Item 62 7-20-31. State beach - one mile north of Santa Monica.

Item 63 7-22-31. Montebello - Water from storm drain causing insanitary condition and breeding place for mosquitoes. Could be eliminated by extending concrete apron into stream bed.

Sewage Disposal Methods in Los Angeles County. [undated]. Scope and Content Note
The typewritten forward to the volume calls it a "photographic resume of a recent survey on sewage disposal methods and plants in Los Angeles County." The fourteen photographs compare the antiquated Los Angeles city plant in Hyperion with the modern efficiency of Pasadena's plant in Alhambra. Titles of items are included here. In addition, there is text accompanying each image.

Item 1 Los Angeles City Sewer Plant at Hyperion.
Item 2 Sewage Solids.
Item 3 Plant and Fall Pier.
Item 4 Sewage Solids on Beach.
Item 5 Sewage on Beach.
Item 6 Sewer Piers.
Item 7 Warning on Out Fall Pier.
Item 8 Fishing from Out Fall Pier.
Item 9 Concession on Out Fall Pier.
Item 10 Storage Tank in Modern Plant.
Item 11 Aeration Tank and Air Lines.
Item 12 Effluent Tanks.
Item 13 Settling Tanks.
Item 14 Fertilizer Plant.
Item 15 Comparison of Sewage Disposal Systems Based on a Chemical Analysis under the Direction of J.L. Pomeroy, M.D., Health Officer by R.V. Stone D.V.M, Director of Laboratories. [Chart].

Item 16 A Comparison of Sewage Solids Removal by Different Plant Method Treatments. [3 page typescript. Unsigned. n.d.]

Scope and Content Note
A photograph album with 79 images telling the story of milk production in Los Angeles County. There were two images attached to each page with typewritten captions on the page.

Item 1-11 Milkhouse. [Various interior and exterior views of milkhouses].
Item 12-16 Corrals.
Item 17-36 | Barn. [Interior and exterior views of barns and cows].
Item 37-42 | Drainage.
Item 43-52 | Water Supply.
Item 53   | Privies. [Front view of "non-flyproof privy."]
Item 54   | Fly Traps.
Item 55-62 | Coolers.
Item 63-65 | Transportation.
Item 66-67 | Receiving.
Item 68-73 | Plant Equipment.
Item 74   | Butter Room.
Item 75   | Laboratory.
Item 76   | Dairyman's Home.

Olympic Village, Los Angeles California. X Olympiad 1932. Los Angeles County Health Department Housing Division Compiled by C.G. Kahlert.

Scope and Content Note
An album showing the planning and construction of the Olympic Village in Los Angeles, constructed for the 10th Olympic games in 1932. The album includes 43 photographs 5 postcards, two illustrations, and one color-coded plan of the village.

Item 1  | [Postcard with Olympic Motto].
Item 2  | "This picture is an air view of housing conditions as they existed during the early Olympiads."
Item 3  | This photo was made from the Sunday supplement of the Los Angeles Times. It gives a plot plan of the housing conditions as they exist for the 1932 Olympiad. (This is Olympic Village)."
Item 4  | "An air view of Olympic Village completed. You are looking at the most complete and efficient method of housing athletes that any Olympiad has known.
Item 5  | "Floor joists used in construction of individual houses were 4x4 redwood. These can be seen in the picture; also the plumbing waste lines can be seen. The waste lines were constructed of galvanized iron down-spouting with soldered joints. Sizes range from 1/1/2" at the fixture, increasing to 21/2" at base of shower."
Item 6  | "A series of individual floor foundations, rough construction."
Item 7  | "A close-up of the galvanized shower room floor is here shown. The water supply pipe, which is copper tubing, can be seen in the foreground. This type of pipe was used in order to cut down on expenses. This tubing can be bent around corners, eliminating the use of fittings."
Item 8  | "Another step in this volume type construction. The floor has been laid and the porch attached to building. The galvanized shower room floor can be seen laying in position, upside down."
Item 9  | "Buildings were put up in sections; carpenters are seen setting a section in place. Louvers in ends of building can be readily seen. These louvers assisted in supplying fresh air at all times to the individual sleeping rooms. The material used in bldg [sic] construction, walls & roof was compressed wood pulp - trade name being "Celetex."
Item 10 | "Another section in place."
Item 11 | [Exterior view] "A completed dwelling. This house contains two sleeping rooms, with adjoining shower. These rooms are 10' x 10'. Each room is supplied with four windows measuring 2'x2'6". This window area plus the louvers assures sufficient ventilation at all times for the athletes."
Item 12 | "A cross-sectional view of the interior of one of the cottages is here shown. This picture gives a still better idea of the construction and furnishings."
Item 13 | "Another interior view showing a small lavatory and the entrance to the shower room."
Item 14 | "An interior view showing the type of furnishings used. The use of a Simons bed has assured the proper night's sleep. This is portrayed by the athlete in the picture."
Item 15 | "An interior of the shower room. These walls have been properly treated to assure water-proofing."
Item 16 | "Public toilet under construction."
Item 17  "The type of patented toilet bowl and seat used in all these toilet buildings. A total of fourteen toilets are located in each building."

Item 18  [Toilet] "This picture with the seat raised shows the trap flaps which are operated by trigger in the foreground. When trap flaps are closed odors are carried off by a three-inch vent pipe twenty feet in height."

Item 19  [Toilet] "Close-up showing how trigger operates the flaps when pressure is exerted on the seat."

Item 20  "Five urinals were located in each toilet building in conjunction with the fourteen toilets."

Item 21  "Completed toilet building." [Exterior view].

Item 22  "This picture shows the rear view of the houses. In the center can be seen the public toilets. These latrines are located throughout the grounds at three-hundred-feet intervals."

Item 23  "Steam rub down and tub baths are located in this building, which is under construction."

Item 24  "Interior scene of shower bath building. In the foreground is a rubber pan containing a 1% hypochlorite solution- this to be used in curbing the spread of foot fungus."

Item 25  "This is a complete picture showing the same building." [Exterior view].

Item 26  "Looking down one of the finished streets in Olympic Village, showing a portion of the 500 houses located here. All dwellings are spaced ten feet apart."

Item 27  "Another street scene." [Olympic Village].

Item 28  "Another street scene." [Olympic Village].

Item 29  "Another street scene with administration offices in the distance."

Item 30  "The next three pictures show mess halls under construction. These give a very good idea of their size."

Item 31  [Mess Hall under construction].

Item 32  [Mess Hall under construction].

Item 33  "Another mess hall view."

Item 34  "Interior view of the Japanese Mess Hall."

Item 35  "Rear view of mess hall showing garbage containers and flamo heat containers."

Item 36  "Close-up view of fly-proofed garbage bin."

Item 37  "Hospital under construction."

Item 38  "Another view of the hospital after completion."

Item 39  "This is the front view of the administration buildings, and the entrance to the village."

Item 40  "Public rest rooms can be seen in the distance. These were located outside the Village and close to the parking station."

Item 41  "Another view of the administrative offices and the entrance to the village."

Item 42  "The water supply system is next. The pump house can be seen in the foreground with four 11,000 gal. tanks. Two 6" centrifical pumps were used to maintain a constant pressure of 40 lbs. on the lines. This water was lifted by a 6" centrifical pump on a 75 h.p. motor which was located at a distance of 32,000' from these tanks and 137' below this elevation."

Item 43  "The construction of two buildings around the original pump house eliminated the noise of the motors used to maintain a constant pressure on the water lines. This picture illustrates this."

Item 44  "Fire protection was furnished by the Los Angeles Fire Department." [Exterior of Engine Co. 75].

Item 45  "This is the entrance of the Olympic Stadium where all the track and field events were held."
