Description of the Collection

Series I - Office records of the Special Services Office. These six boxes contain mainly office correspondence and informative material pertaining to the draft and draft counseling. Also included are 5 volumes of computer printouts of statistical analyses concerning Stanford students and their draft classifications. The order and the titles of the folders in this collection were preserved exactly as they were received in the Archives office. The register contains some information added by the arranger in an attempt to indicate the contents of the file where not clear from its title.

Series II - Files consisting mainly of correspondence relating to named individuals and specific counseling cases. These files were selected to serve as examples and illustrations of the work done by the draft counseling office.

Series III - Files of students who filed for exemption as Conscientious Objectors, their statements, letters of support, and, in some cases, transcripts of their personal appearances.

Series IV - II-S (student deferment classification) files kept for the academic years 1971/72 and 1972/73. These files were received in April 1977.
