Overview
Call Number: SC0775
Creator: Stanford University, Program in Human Biology, Middle Schools Curriculum Project
Title: Stanford University, Program in Human Biology, Middle Schools Curriculum Project, videorecordings and computer files
Dates: 1988-1996
Physical Description: 2.5 Linear feet
Summary: Collection includes the video program Human Biology for the Middle Grades: A Bold New Approach, 1988; videotapes of team presentations from the Summer Institute of 1993; one video tape from the Summer Institute of 1991; other miscellaneous video tapes; CD-ROM of the program's instructional unit on the heart and lungs; other CD-ROMs; and floppy disks and hard drives containing the texts for publication.
Language(s): The materials are in English.
Repository: Department of Special Collections and University Archives

Biographical/Historical Sketch
The Middle Schools Curriculum Project began in 1987 with the intent to develop a science curriculum that would interest many diverse students and give them a solid knowledge base. A prototype based on the Human Biology curriculum at Stanford was so successful that that focus was continued. From 1991 to 1994 Summer Institutes were held at Stanford with teachers and administrators from 12 diverse test-site middle schools.

Description of the Collection
Collection includes the video program Human Biology for the Middle Grades: A Bold New Approach, 1988; videotapes of team presentations from the Summer Institute of 1993; one video tape from the Summer Institute of 1991; other miscellaneous video tapes; CD-ROM of the program's instructional unit on the heart and lungs; other CD-ROMs; and floppy disks and hard drives containing the texts for publication.
