Overview

Call Number: SC0794

Creator: Manne, Alan Sussmann

Title: Alan Sussmann Manne papers

Dates: 1957-2001

Physical Description: 6 Linear feet (13 boxes)

Summary: The papers primarily pertain to Manne's research and writing on energy, energy policy, greenhouse gases, etc., and include correspondence, typescript papers, notes, figures, charts, and computer printouts, with some papers by others.

Language(s): The materials are in English.

Repository: Department of Special Collections and University Archives

Green Library

557 Escondido Mall

Stanford, CA 94305-6064

Email: specialcollections@stanford.edu

Phone: (650) 725-1022

URL: <http://library.stanford.edu/spc>

This collection was given to the Stanford University Archives by the estate of Alan Sussmann Manne in 2006.

Information about Access

The collection is open for research; materials must be requested at least 48 hours in advance of intended use.

Ownership & Copyright

All requests to reproduce, publish, quote from, or otherwise use collection materials must be submitted in writing to the Head of Special Collections and University Archives, Stanford University Libraries, Stanford, California 94304-6064. Consent is given on behalf of Special Collections as the owner of the physical items and is not intended to include or imply permission from the copyright owner. Such permission must be obtained from the copyright owner, heir(s) or assigns. See: <http://library.stanford.edu/depts/spc/pubserv/permissions.html>.

Restrictions also apply to digital representations of the original materials. Use of digital files is restricted to research and educational purposes.

Biographical/Historical Sketch

Alan S. Manne was on the faculty at Stanford University from 1961 until he retired in 1992, with the exception of two years teaching at Harvard (1974-1976). He was known for devising economic models pertaining to major world concerns and was the author of 128 papers and seven books.

Description of the Collection

The papers primarily pertain to Manne's research and writing on energy, energy policy, greenhouse gases, etc., and include correspondence, typescript papers, notes, figures, charts, and computer printouts, with some papers by others.
