Scope and Contents
Wolfgang Panofsky, Director of SLAC, Jeremy Stone, Director, Federation of Atomic Scientists, and Tony Webb, anti-nuclear activist, share their views on issues such as rates of technical advances in the arms race, political and psychological perceptions of adversaries' nuclear capabilities, negative byproducts of the arms race, and recurring questions concerning non-proliferation policies, society's willingness to continue financing or otherwise support the arms race, and the incipient creation of nuclear-free zones. A question-and-answer period follows. Panel discussion presented by Stanford Arms Control and Disarmament Forum at Stanford University on May 28, 1981. Moderated by Phil Farley, former Deputy Director, Arms Control Disarmament Agency.

Euromissiles: a panel discussion V374 1983 Nov 16
Physical Description: 2 videotape(s) (u-matic)
Scope and Contents
Stephen Band of the British Embassy, and John P. Holdren, Professor of Energy and Resources, Berkeley, debate opposing views concerning the installation of Pershing IIs and Cruise missiles in Europe, the anticipated upsetting of the arms balance, the reduced possibility of arms control and the increased possibility of splitting NATO. Fellow panelist Hilmar Linnenkamp of the West German Defense Ministry and the Institute for East-West Security Studies points out the dramatic changes that have occurred in Europe over the last 15 years and predicts that the most decisive factor in the debate will not be numbers of missiles nor nuclear strategies but the political "blood pressure" of Europe and the world. A question-and-answer period follows. Held at Stanford University, November 16, 1983 as part of the Forum on Intermediate Nuclear Forces: Pershing II and Cruise Missiles. Moderated by Coit Blacker of the Center for International Security and Arms Control.

**The Uncommon Man: Dinner in Honor of Mr. Peter Bing V382 1994**

Physical Description: 1 videotape(s) (vhs)

Biographical/Historical note

In 1953 the Board of Governors created the degree of Uncommon Man/Uncommon Woman to honor those men and women who have rendered unique and outstanding service to the University. The degree was inspired by a statement made by Herbert Hoover, which said in part: “We believe in equal opportunity for all but we know that this includes the opportunity to rise to leadership in other words, to be uncommon.” The degree is not given annually, nor at regularly prescribed intervals, but only when it is truly appropriate to honor someone for rare and extraordinary service to the University.

Scope and Contents

Footage of the dinner honoring Peter Bing, recipient of the Stanford Associates' Degree of Uncommon Man Award in 1994.
