Accruals

Web sites selected for inclusion in the collection are scheduled for capture on a recurring basis, usually at least once per year.

Physical Characteristics / Technical Requirements

The websites were captured using HTTrack, a free offline browser utility. HTTrack downloads a website from the Internet to a local directory, building recursively all directories, getting HTML, images, and other files from the server to your computer. HTTrack arranges the original site's relative link-structure allowing you to open a page of the mirrored website in your browser and browse the site from link to link.

Scope and Content

The materials consist of Stanford University student publication websites captured by University Archives staff.

Arrangement note

Web sites are listed alphabetically by publication title.
