**Title:** Thesaurus Linguae Graecae Project records  
**Identifier/Call Number:** AS.096

**Contributing Institution:** Special Collections and Archives, University of California, Irvine Libraries

**Language of Material:** English

**Physical Description:** 15.4 linear feet (16 boxes)

**Date (inclusive):** 1971-1998

**Abstract:** This collection comprises documentation from Thesaurus Linguae Graecae Project (TLG) research unit at the University of California, Irvine, one of the world’s first humanities computing, or digital humanities, projects. The collection includes early computer programming instructions for the TLG’s Ibycus system, user instructions, user surveys, office and subject files. The user surveys were conducted in 1985, 1991, and 1998 and address user satisfaction and scholar use of the TLG CD-ROMs. Office files include advisory committee materials, clippings, correspondence, planning materials, conference materials, and other subject files. Additional materials include documentation of computer programming for text searching, the Ibycus system, and data entry instructions and related documentation, as well as volume 5 of the TLG CD-ROM.

**Creator:** Thesaurus Linguae Graecae Project.

**Access**
The collection has not been processed. It may contain restricted materials. Please contact the Department of Special Collections and Archives in advance to request access.
