Processing History

Organizational History

Network and Academic Computing Services (NACS) provides telephone, network, and computing services in support of research and education at the University of California, Irvine (UCI). NACS provides central computing services, computer laboratories, computer support for departments and research groups, and campus-wide technical coordination.

NACS had its origins in the Computer Facility, which was established when the campus opened in 1965. By 1990 it had become the Office of Academic Computing. This name was changed in July 2000 to Network and Computing Services in order to better represent the office's role on campus.

Biography/Organization History

1972 Computing Facility reorganized to include Computing Center, Computing Facility, and User Services.
1981 Computing Facility began reporting to Vice Chancellor of Administrative and Business Services.
