Descriptive Summary

Title: Jakob Bjerknnes Papers,

Date (inclusive): ca. 1900-1988

Collection number: 1709

Creator: Bjerknnes, Jakob, 1897-1975

Extent: 2 boxes (1 linear ft.)

Repository: University of California, Los Angeles. Library Special Collections.

Los Angeles, California 90095-1575

Abstract: Jakob Aall Bonnevie Bjerknnes (1897-1975) was a professor of meteorology at UCLA (1940-1965). He founded UCLA's Atmospheric Sciences Department. His research work focused on the importance of atmospheric fronts and initial formulation of polar front model, and global changes in the atmosphere. The collection consists of material relating to Bjerknnes and his meteorologist father, Vilhelm. There are clippings, printed items, correspondence, photographs and memorabilia, papers by Jakob Bjerknnes, awards, and materials regarding his memorial at UCLA, memorial lecture and fund.

Physical location: Stored off-site at SRLF. Advance notice is required for access to the collection. Please contact the UCLA Library Special Collections Reference Desk for paging information.

Language: English.

Restrictions on Use and Reproduction

Property rights to the physical object belong to the UCLA Library Special Collections. Literary rights, including copyright, are retained by the creators and their heirs. It is the responsibility of the researcher to determine who holds the copyright and pursue the copyright owner or his or her heir for permission to publish where The UC Regents do not hold the copyright.

Restrictions on Access

COLLECTION STORED OFF-SITE AT SRLF: Advance notice required for access.

Provenance/Source of Acquisition

Gift of Hedvig Bjerknnes, 1993.

Preferred Citation
