Biography
The Woman's Christian Temperance Union (WCTU) was the first mass movement of American women; during the last quarter of the nineteenth century the WCTU was the major vehicle through which women developed a changing role for themselves in American society; the union played two important roles: it provided a national voice through which women expressed their views on social and political issues, and it was also a vast grass roots organization that worked for charitable and political solutions to social problems; reaching into small towns and large cities, it cut across sectional, racial, and ethnic boundaries to include women from nearly every sector of American life; WCTU played a major role in heightening women's awareness and became one of the most powerful instruments of women's consciousness-raising of all times.
