Preferred Citation
University of California, Santa Barbara Office of Architects and Engineers collection. UArch 63. Department of Special Collections, Davidson Library, University of California, Santa Barbara.
Acquisition Information
Undetermined.
Scope and Content of Collection
The Office of Architects and Engineers collection contains plans, reports, and committee minutes relating to the design and construction of campus buildings and facilities. The collection generally covers the period of the university's history when it was still the Santa Barbara College, in 1950-1979. The Office of Architects and Engineers was a subdivision of the Office of the Vice Chancellor. Campus Design and Facilities Management, also a subdivision of the Office of the Vice Chancellor, now manages the same issues and projects as the Office of Architects and Engineers. The files are arranged as received, generally in chronological order.
Campus Design and Facilities Management maintains a website: http://facilities.ucsb.edu/
Indexing Terms
The following terms have been used to index the description of this collection in the library's online public access catalog.

University of California, Santa Barbara. Office of Architects and Engineers
University of California, Santa Barbara. Campus Design and Facilities
