**Language of Material:** English

**Contributing Institution:** University of California, Santa Cruz

**Title:** Stanislaus Vasilevskis papers

**creator:** Vasilevskis, Stanislaus

**Identifier/Call Number:** MS.255

**Physical Description:** 6.3 Linear Feet7 boxes

**Date (inclusive):** 1943-1989

**Conditions Governing Access**

Collection is open for research.

**Arrangement**

This collection is organized into eight series:

1. Correspondence
2. International Astronomical Union (IAU)
3. Research
4. Teaching and lectures
5. Conferences
6. Lick Observatory
7. Kitt Peak Observatory
8. Biography and bibliography

Materials within each series are arranged in chronological order, unless otherwise specified.

**Biographical / Historical**

Stanislaus Vasilevskis was an astronomer and astrometrist born in 1907 in Latvia. He earned his Ph.D. at the University of Riga in 1939, and migrated to the United States, where he began working at the Lick Observatory as an assistant astronomer in 1945. Under the directorship of C.D. Shane, he worked on the observatory's proper-motion study, which was launched in 1947. In 1954, Vasilevskis was promoted to assistant astronomer and faculty member at Lick Observatory, and also began supervising the proper-motion study. As part of this project, Vasilevskis was involved in taking multiple series of thousands of photographs of the northern sky, and thereby measured the movements of more than 300,000 stars in the Milky Way galaxy. Vasilevskis was promoted to full Professor of Astronomy and Astrophysics in 1966, the same year that the Lick Observatory moved its operations and administration to UC Santa Cruz. He retired from the University of California in 1974, and then served as a visiting professor at the University of Leiden in the Netherlands for a few years. Vasilevskis died in 1988 at the age of 80 in Palo Alto, California.

**Preferred Citation**

Stanislaus Vasilevskis papers. MS 255. Special Collections and Archives, University Library, University of California, Santa Cruz.

**Processing Information**

Most folder titles are derived from the original folder labels.

**Related Materials**

Additional Vasilevskis correspondence from 1951-1960 can be found in Series 1 of the Lick Observatory records:

[UA.036 Series 1: Correspondence](#)

**Content Description**

This collection documents the career of Lick Observatory astronomer Stanislaus Vasilevskis, and includes his professional correspondence, International Astronomical Union documentation, notes and reports from various astronomical and astrometric conferences, subject files, materials on various research programs at Lick Observatory, lectures and teaching notes, and other research materials.

**Conditions Governing Use**

Property rights for this collection reside with the University of California. Literary rights, including copyright, are retained by the creators and their heirs. The publication or use of any work protected by copyright beyond that allowed by fair use for research or educational purposes requires written permission from the copyright owner. Responsibility for obtaining permissions, and for any use rests exclusively with the user. ### Correspondence 1950-1986

#### Arrangement

Materials in this series are arranged alphabetically by last name of correspondent.

#### Scope and Contents

This series contains Vasilevskis's professional correspondence during his career at the Lick Observatory, and also includes reports, grant proposals, and some subject files.

Box 6-7

**Research notes 1944 and undated**

**Scope and Contents**

Includes calculations, charts, and other research materials, possibly from Vasilevskis's early research as a student or in his early career. Also includes a set of unidentified note cards with numerical notations.

**Teaching and lectures 1957-1973**

**Conferences 1953-1974**

**Scope and Contents**

This series contains documents from conferences that Vasilevskis attended, including meetings of the American Association for the Advancement of Science (AAAS), the American Astronomical Society (AAS), and various astrometric conferences. Materials include conference schedules and brochures, submitted and collected papers and abstracts, observing data and other research, and notes.
