Acquisition Information
The majority of this collection was donated by Dr. John L. Ziegler in 1994. An additional folder of Ziegler's correspondence was donated by Debra Kent (AIDS Research Institute) in 2002. The material had been collected by Kent and Arthur Amman for an AIDS Oral History display in the 1990s.
System of Arrangement
Arranged to the folder level.
Processing Information
Processed by Julia Bazar in March 2005
Biographical Information
John L. Ziegler was born in New York City in 1938. He received a BA and MA in English from Amherst College. He then received his medical degree from Cornell University Medical College in 1964. He served 2 years at Bellevue Hospital in New York before joining the National Cancer Institute (NCI) as a Clinical Associate in the Medicine Branch. In 1967, as a Senior Investigator at NCI, he spent five years as Director of the Lymphoma Treatment Center, Department of Surgery, Makerere University, in Kampala Uganda. In 1973 Dr. Ziegler returned to the United States as Chief of the
Pediatric Oncology Branch, Division of Cancer treatment at NCI. He also served the NCI as Deputy Clinical Director; Associate Director, Clinical Oncology Program; and Editor-in-Chief of the Journal of the NCI. He has also served as a consultant to the World Health Organization and as medical director of the U.S. Public Health Service. Dr. Ziegler is also a two-time Fulbright Research Scholar.

Dr. Ziegler joined the University of California San Francisco (UCSF) faculty and staff in 1981. At UCSF he served as a professor of medicine and director of the UCSF AIDS Clinical Research Center. In this position he used his knowledge of fast growing tumors in research into Kaposi’s sarcoma and other AIDS related tumors. He also worked at the Veterans Administration Medical Center (VAMC) Center for AIDS Research and Education. Dr. Ziegler served as co-chair of the Sixth Annual International AIDS Conference, which was held in San Francisco in 1990.

Doctor Ziegler is currently Director of the Familial Cancer Risk Core Facility and the Cancer Risk Program at the UCSF Comprehensive Cancer Center.

Scope and Content of Collection
Correspondence, grant and project proposals, notes, research papers and ephemera connected to Dr. Ziegler’s work dealing with AIDS related cancers, particularly Kaposi’s Sarcoma. Also included in the collection is a folder of correspondence, clippings, and a photo from Dr. Ziegler’s term as the UCSF appointed trustee to the Marin Community Foundation’s Bucks Family Trust.

This collection contains ephemera, correspondence, research papers, grant proposals and research studies. The majority of these materials cover the period 1981-1984.

The "Ephemera" and "Various Papers" folders consist primarily of the work of others, though some biographical information on Dr. Ziegler (and an abstract for a paper) does appear in the "Various Papers folder."

Dr. Ziegler served as the Principal Investigator for the two American Cancer Society proposals (folders 1/3 and 1/4). These two files consist primarily of correspondence.

Dr. Paul A. Volberding is listed as Principal Investigator for the NIH/Tissue Bank Proposal.

Ziegler was directly involved in coordinating the "Multi-Center Study of the Correlation between Non-Hodgkin’s Lymphoma (H-L) and Kaposi’s Sarcoma (KS)" which was accepted for publication in the New England Journal of Medicine in 1984. This file contains correspondence and other data related to the article. The NCI Cancer and AIDS Research Proposal also consists primarily of correspondence and other exploratory work towards submitting a proposal, and a recommendation for approval of the proposal.

Also included in this collection is a folder of materials relating to Dr. Ziegler’s service as a trustee of the Buck Trust of the Marin Community Foundation (MCF). These materials consist mainly of letters and a few newspaper articles to, from, or about Dr. Ziegler and his appointment in 1988 and resignation in 1990. Also included are several newspaper clippings and other material on the "Ventura Model" of integrated mental health services, the push towards decentralized/integrative business models and other foundation management issues.

A stock photo of Dr. Ziegler can also be found in the collection.

Patient records, photos and other personally identifiable materials have been RESTRICTED.
