Title: William Henry Jackson photographs
Collection number: 0259
Contributing Institution: USC Libraries Special Collections
Language of Material: English
Storage Unit: 1
Physical Description: 1.27 linear ft. 1 box
Date: 1871-1873, undated
Abstract: These 25 mounted photographs, depicting views of Yellowstone National Park, and various lakes and mountains in Colorado, Montana, and Grand Teton National Park, were taken by renowned American photographer William Henry Jackson between 1871 and 1873. They represent part of the body of work created by Jackson during his tenure as photographer for exploratory expeditions ("Department of the Interior U.S. Geological Survey of the Territories") of the American West sponsored by the Department of the Interior and led by geologist Frederick V. Hayden.
creator: Jackson, William Henry, 1843-1942
Conditions Governing Access
Advance notice required for access.
Conditions Governing Use
All requests for permission to publish or quote from manuscripts must be submitted in writing to the Manuscripts Librarian. Permission for publication is given on behalf of Special Collections as the owner of the physical items and is not intended to include or imply permission of the copyright holder, which must also be obtained.
Scope and Content
These 25 mounted photographs, depicting views of Yellowstone National Park, and various lakes and mountains in Colorado, Montana, and Grand Teton National Park, were taken by renowned American photographer William Henry Jackson between 1871 and 1873. They represent part of the body of work created by Jackson during his tenure as photographer for exploratory expeditions ("Department of the Interior U.S. Geological Survey of the Territories") of the American West sponsored by the Department of the Interior and led by geologist Frederick V. Hayden. The photographs all bear a stamp on the reverse: "Library/University of Southern California/College of Liberal Arts/Los Angeles, Cal." and may have been part of a reference collection at one time.
Related Materials
Many of these photographs have been digitized by the USGS; see http://libraryphoto.cr.usgs.gov/index.html
